MAY/JUNE 1988. No.28. THE GREAT SHOW AWARD !

GREETINGS !

I'm sitting comfortably thankyou ! Since I fell off my chair a visit from Brian Bonner delivering two very plush leather chairs with arms has ensured that I can't do it again. Now Simon [a figment of YOUR imagination - and not to be confused with any other Simon mentioned here] thought that the other one was for him. I said to him "you have to break a wrist to get one !", and he wants to know who's wrist ! Jim Palmer was right, Simon thinks Jetset Willy is a disease suffered by the idle rich !

I'm miles behind with answering letters again, sorry ! Special thanks for info. sent to me must go to Bob Adams, Dave Coggins, Phil Wharfe, John Brown, Ray Mills, Frank Ryan, Simon Simpson, Chris Steggles, G. [George ?] Bantock, Mick, Stewart, Alan, Peter and others. Lief's real name is LEIF, apologies for that - but it does mean that I can't mention Mike Penney again ! Steve Ainsworth is leaving us, not for the DAKTARI, but for Jersey ! I can't think of a better place NOT to use a computer - Good luck, Steve ! Simon is reporting the Isle of Man to the Race Relations outfit. Bonzo would've reported them to the RSPCA. John Brown is just reporting ! AMSTRAD ACTION, 23 mistakes in our first half-page advertisement, reported to QED.

What's the GREAT SHOW AWARD ? Well Luke and Co., complete with BONZO ENBLAZONED LIVERY will be hoping that THIS time on the hour any-hour, they WILL find some fellow meddlers. Meeting point is the SIREN STAND, and one-o'clock on the Saturday will see the SPECIAL PRESENTATION [Bag of JB's ?] to THAT Simon. [Cobb that is]. At this point OUR Simon is scurrying about, resplendent in nurse uniform and wearing a cardboard dangly watch, secreting little bags of something in all manner of strange places. No - NOT there, Simon ! It'll interfere with your metabolism.

We all know that external ROMS can seriously interfere with "meddling" don't we ? Not just a ROMOFF command, but REMOVE them ! The exception will be DK EXPANSION ROM left on for HACKPACK transfers. OK., that seems to be that, or is it ? Gary reports that the "special" version of OUT OF THIS WORLD works on one 6128, but not on another. It works on mine, but not on Derek's - and there's more like that. All the 6128's were running under the same conditions, mysterious eh ? Add to that the fact that Phil W.'s 6128 won't run SHADOW SKIMMER, tape or disc - and that Dave's 6128 runs some games OK when first switched on, but not an hour or two later ! Someone else has a 6128 that will run some games ONLY when it has been on for a few hours but not from "cold". A deal of correspondence ran between myself and another patient "meddler" who couldn't get OPTION 4 or OPTION 5 to work for him. Eventually the 6128 was sent for "repair" - twice before they fixed it. It transpired that there was a chip overheating - problem now solved. I had a new 6128 a few months ago that seemed OK, until I tried "LIVING DAYLIGHTS" - the screen was disjointed and the game looked odd. Dixons supplied 3 replacements until I got a good one ! What's all this about then ? Alan Sugar has let it be known that the 6128 board has been re-designed to "improve efficiency", as a secondary benefit it will apparently be cheaper to produce. Choose your own order of priorities for this change ! Early days there were problems with the ULA [Uncommitted Logic Array, Simon - not underwear, legs and armpits] overheating, but that was apparently fixed. All we can say for certain is that where these "funnies" occur they concern one or more of the following:

A) Directly instructing the Disc Controller [FDC 765]. [B] The Video Controller [MD6845] [C] The Gate Array [40010]
The fact that the games that refuse to run on the "odd" machines are NOT all the same, those that refuse to run on one may be perfectly OK on another tends to indicate different faults - UNLESS the Gate Array is totally responsible. Perhaps there's a "hardware man" out there who can elucidate what to me is a confusing subject ? Is it a fault or a design change ? Enter Simon with bent knife, fork and broken watch with two shoelaces attached. Reckons he'll fix 'em; more chance than I have !

COMPILATION NEWS

ALL STARS COMP. [THE EDGE] BOBBY BEARING, FAIRLIGHT 1, BRIAN BLOODAXE, MINDSTONE - ALL OPTION 1.

FAIRLIGHT 2, & PALITRON are HACKPACK. WARLOCK is BLITZ [ODD]. SHADOW SKIMMER & INSIDE OUTING are NOTHING AT ALL [SPECIALS].

COMPUTER HITS 4 12 GAMES, combined info from several sources arrive at BRIDES OF FRANKENSTEIN, REVOLUTION [*** !], UCHIMATA, STARQUAKE, TRIAXOS and DE-ACTIVATORS being OPTION 1. ANTIRIAD and PULSATOR are OPTION 2X, SPINDIZZY is HACKPACK. ELEKTAGLIDE is BLITZ, and GEORGE (I think !) BANTOCK reports DANDY as part OPTION 5, part 2X, but doesn't work properly ! With that combination - full marks for effort ! - I'm surprised that it would run !

MICROVALUE 4 GREAT GAMES 2 - George again ! KING TUT - OPTION 1. COPOUT - BUNLOCK. FUTURE SHOCK - OPTION 4 + PICBONK [How does he do it ?]. BATTLE OF PLANETS not mentioned but should be OPTION 4 as original.

MICROVALUE 4 GREAT GAMES 3 - Guess who likes compilations ! DIVE DIVE - HACKPACK. CUSTARD PIE, EQUINOX, IAN BOTHAMS CRICKET [sorry about the back Ian !] all OPTION 1.

GOLD COLLECTION 3 ALL go BLITZ - note that PART TWO of BLACK MAGIC needs the CODENAME "QUALTAN" to be entered when transferring. REVOLUTION [Again ?] needs you to look under the BLITZ heading. LEVIATHAN is MAIN FILE ONLY.

Note the reason for my oft quoted "watch out for compilations". REVOLUTION, UCHIMATA, STARQUAKE & EQUINOX, good examples of the changes. Andrew Mohan says the ALL STARS TAPE is "dodgy" - return it. The replacement will probably be dodgy too, but on other games. Simon says "why is a dodgy tape like Chelsea Football Club ?". Get lost Simon.

STREAKER Reported "bugged" months ago. John re-bought expecting it to be sorted out by now. Was it ? NAAAAAH ! Good eh ?

OPTION 1 STANDARD TRANSFERS. "New" reports, mostly minor or no alterations.

The symbols "N" = DO NOT RELOCATE, "C" = FROM COMPILATION TAPE-Where worthy of note, "*" SEE NOTES FOLLOWING.

METROPOLIS, TIRANOG*, IAN BOTHAM(C), CUSTARD PIE FACTORY(C), REVOLUTION(C), UCHIMATA(C), EQUINOX(C), LEAGUE CHALLENGE, TENPIN CHALLENGE, COLOSSUS MAHJON, ZARKON, BLOOD VALLEY*.

Luke reports BLOOD VALLEY via HACKPACK saves loads a space, OPTION 1 needs the loader that follows. Stewart provides the TIRANOG loader. The main file of ZARKON will "stand alone" [and crunch to 24K from 48K !]

OPTION 2 HEADERLESS FILES. [But use OPTION2X !] Of course there's something: YOGI BEAR - that's all folks !

The mention of WRIGGLER [PLAYERS] last month omitted to say that it required a "dummy" start tape to be done in the time-honoured fashion. Those that know it - do it. Them as don't, HACK PACK it ! Re-issued DARTS 180 may NOT be MASTERX type.

OPTION 3 FLASHLOADERS..... SUPERSTUNTMAN - or BLITZ it !**OPTION 4** Not to be confused with the MENU OPTION !

Nothing new here, you're not trying are you ? It is a most "unlikely" routine ! Current list is :

BATTLE OF THE PLANETS, COPOUT, FROSTBYTE, JACK THE NIPPER, EVERY' WALLY, SAS STRIKEFORCE, AVENGER(not the S'lock early vsn.)
 FUTURE KNIGHT, EQUINOX, FOOTBALLER 'D YEAR, LIVING DAYLIGHTS, HERBERT'S DUMMY RUN, 3 WEEKS IN PARADISE, and TANKBUSTERS[some versions, and probably 464 only !], 2112AD, NEXOR, ARKHAM MANOR PT2., FRANK BRUND[main file], DARKSTAR[FIREBIRD].ON THE RUN

OPTION 5 Not to be confused with the MENU OPTION ! * = reported terminally ill !

You can add METAL ARMY, CHAMPIONSHIP SPRINT [The DESIGNER is "no no" at present] and the main file of GREAT BRITAIN AIR RACE.
 Current full list is;

BACK TO THE FUTURE, SPACE ACE, JOE BLADE, HIGH FRONTIER, STAR RAIDERS II, ENDURO RACER, HOWARD THE DUCK, CHMP BASEBALL,
 TERROR OF THE DEEP, WONDERBOY, QUARTET, NIGHTMARE, XOR, SUPERSPRINT, HIJACK, DRILLER, INTERNAT.KARATE+, TETRIS, REFLEX,
 FIRETRAP, CHAMP'SHIP BASKETBALL, DIZZY DICE, TANIUM, RADIUS*, SHANGHAI KARATE[pt.1], CHAMP. SPRINT. METAL ARMY. GB AIRRACE[MF]

Phil Wharfe got fed up with all OPTION 5 filenames starting with "C" and has devised a RENAME"C" mod for it. A little long for inclusion here, but a disc and small contribution to our busiest informant will get it for you. A very nifty rename file putting the numeric character to the end for HACKPACK 6128 files will be included.

Phil's address; PHIL WHARFE 52 SEDGEMOOR ROAD, BANKFIELDS, ESTON, MIDDLESBOROUGH, CLEVELAND TS6 6QA.

OPTION 6

ANARCHY, SWAT, GRAND PRIX TENNIS, ENERGY WARRIOR, KILLER COBRA* & re-issued ALIEN 8, GHOSTBUSTERS, MOL'C'MAN & SABRE WOLF.

Killer Cobra needs the "dummy" tape file technique, and ROLLAROUND as mentioned last month is sadly a "special". For COBRA transfer the first two files with OPTION 1 - Stop the tape at that point and remove it. Call it Jim. Now load the basic file from disc, note the quaint remarks, and ALTER line 90 [and 100] to read as follows. Now get a blank tape , name Wendy, in your player, and run the altered basic file. It will pick up the binary file, modify it and save it to Wendy. Rewind Wendy. Now run OPTION 6, allowing it to pick up the file on Wendy. As soon as it has it, swap Wendy for Jim and allow it to continue. You will be rewarded with "KILLER" files that work perfectly. Don't forget to get your levels correct ! Sounds complicated, but it's not! All you are doing is re-creating the binary file at an address that suits us, and without the need for the basic file - which was only there so that the authors could tell us how cute their loading system is ' Simon just fell off his Pogostick laughing.

BUNLOCK Later Speedlocks

One of the files that resides on the BLITZ disc [by the name of BLITZ !] , this is also on BSM1988 and takes care of at least:
ARMY MOVES - both, COBRA STALLONE, DONKEY KONG, GOONIES, GREAT ESCAPE, ARKANOID, BMX SIMULATOR, EXPRESS RAIDER, LEADERBOARD, TOURN. LEADERBOARD, MIKIE, SARACEN, TOPGUN, MINDSHADOW, LEGEND OF KAGE, VAMPIRE. HIGHLANDER[See 19]

From my knowledge of the BLITZ file I know there are a number more, but I am reluctant to "report" them without confirmation.

BONZO BLITZ - THE SPEEDLOCK CRACKER ; New reports:

RACE AGAINST TIME (SPORTAID), KONAMI GOLF, BLACK MAGIC2, REVOLUTION†, and main files of LEVIATHAN[C] and VIXEN.

Luke reckons that someone should be "done" for the blurb on R.A.T. - "BEST GAME EVER WRIT". No Simon, you can't CHOOSE who ! The "freebie" IMPOSSIBLE MISSION is BLITZOLD (and probably OPTION 3). REVOLUTION is transferred as detected, but will only run if you employ this loader;

1 REM: This "fixes" the REVOLUTION transfer made by the BLITZ or BUNLOCK file. Just RUN this

BLITZHH There is a BLITZHH file on the current BLITZ disc that deals with "THE HIGHWAYS", not worth up-dating the disc for. It was done just to prove a point - but may be useful to those stuck with the games. Note that ALL these lists are direct loads to TASWORD from proved working files. They are correct ! This will create BLITZHH which should be run just like BLITZ/BUNLOCK.

RAM DAM WHAT'S THIS ?

Paul Gibbons reports SPACED OUT transfers by this old routine ! Could be the address difference of the intercept routine on HACKPACK that causes this anomaly. No I've not checked it - no need in this case. Shows again that determination will often show me up ! Put your teeth back in, Simon !

HACK PACK

Note that LR = LAST RESORT. EX = EXPANDED MACHINES ONLY. TA = Press TAB AFTER tape stops.

BOBSLEIGH[LR], TTRACER[LR], PACIFIC[LR], POPEYE[LR], GOTHIK[LR], DIVE DIVE, POGD STICK OLYMPICS, ASHKERON, FRANKENSTEIN ADVENTURES-ALL 3 from CRL, are the latest "new ones". The re-issue of RIGEL'S REVENGE is NOT HACKPACK - Nor OPTION 6, but close! A brisk trade with SILVER COLLECTION from FIREBIRD has been useful. BOBSLEIGH is a surprise - many thanks to D.(DETERMINED?) PACE for the info, takes it off the "Specials" list. I didn't believe it, LAST RESORT & ALLOW RESET. So I tried some more with the "AMSTRAD" second file and came up with PACIFIC and TTRACER which were also previous "Specials" ! Shows how quickly I convince myself that a game IS a "Special", and how I get humbled by meddlers ! TIRANOG produces files that don't run - but OPTION 1 plus some of Stewarts "jiggery pokery" fixes that. See elsewhere. No Simon, I know you're in bed when that's on ! For those of you that kept asking about HACKPACK filenames with the numeric character at the END, Phil has the answer. See OPTION 5.

DOO DAH

NOTE that LEGEND OF KAGE and YES PRIME MINISTER are OK clones. More important to note is that MANY games starting with a binary loader will run under BIGBONZO FORMAT by using BBPATCH from the BLITZ disc. It doesn't only apply to BLITZ transfers. Works just as well for OPTIONS 2X,4,5 & 6 plus most OPTION 1 with binary loaders.

CUTE DISC WHAT IS THIS - WHO KNOWS ?

John Brown wanted to use CUTEDISC under BIGBONZO FORMAT without having to transfer it to the large format. A few added lines sorted it out, with the option for BBONZO built-in.;

```

5 GOSUB 1000: REM ***select format*** / ADD THESE TO THE CUTEDISC FILE
1000 MODE 1:LOCATE 9,6:PRINT"BIGBONZO FORMAT Y or N"
1010 WHILE A$("<>"):A$="":WEND:WHILE A$="":A$=UPPER$(INKEY$):WEND
1020 IF A$="Y"THEN RESTORE 1060 ELSE RESTORE 1070
1030 P=PEEK(&be42)+256*(PEEK(&be43))
1040 READ A$:FOR X=1 TO (LEN(A$)-1) STEP 2:Y=VAL("&"+MID$(A$,X,2)):POKE P,Y:P=P+1:NEXT:CALL &BB00:RETURN
1060 DATA "2800030700cc003f00c00010000100720a2032e502040000ff"
1070 DATA "2400030700b3003f00c00010000000c1092a52e5020400ff00"

```

Because it adds to the length of CUTEDISC there are some extreme cases [in transfers to tape only] where it may get a problem, but not much to worry about. The same idea can be freely adapted to use where the fancy takes you.

SPECIALS

These programs, that cannot be done via BSM, or any utility [some can be done via BANKRAID on a 6128] short of a magic box, represent the hard work of a number of gifted "meddlers", plus the ones that I do myself. * = Do it yourself with BANKRAID !
 MOONCRESTA, STARSTRIKE2, DRUID, NICK FALDO PLAYS SOMETHING, GET DEXTER, SAI COMBAT, NIGHT GAMES (2 full sides), ZAXXON, BOUNDER*, THING ON A DING*, ROCKY HORROR, STAINLESS STEEL*, TOMAHAWK, TRIVIAL PURS* (main file only), TLL*, FIGHTING WARRIOR, MERMAID MADNESS, STARGLIDER, NODES OF YESOD, SPLIT PERSONALITIES, GALIVAN, EAGLES NEST, KNIGHT RIDER, BIGGLES, MISSION ELEVATOR, TARZAN, HYPERBOWL, NINJA, FLYSPY, HOLLYWOOD OR BUST, DANDY, ALIENS*, SUPERSLEUTH, FEUD, SUPERMAN, THAI BOXING, LORDS OF MIDNIGHT, DYNAMITE DAN II, 5TH AXIS, CYCIT, AUFW MONTY, STRIKE, PRODIGY, ONE, MERCENARY, AMAZING SHRINKMAN, MOVIE, BACTRON, INFODROID, AMERICA'S CUP [6128], THING II, NIGHT GUNNER, MISSION GENOCIDE*, HACKERII, BUMPSET STRIKE, SOLOMONS KEY, CENTURIONS, TRANTOR, BOSCONIAN, JACK NIPPER2*, SPACED OUT, GARY LINEKER, AGENTXII, OLLIE & LISA, RAMPAGE*, RYGAR, DANGERMUSE, CITY SLICKER, COSTA CAPERS, DEFLEKTOR, FINAL MATRIX, ATF, DRACULA [3 parts - one side], GRYZOR and OUT OF THIS WORLD [6128 only, a FULL side each], FORBIDDEN PLANET, 3DFIGHT, BILLY, FLASH, SOCCER86, MGT, ZOIX2099, BASIL THE GREAT MOUSE, INSIDE OUTING, CAMELOT WARRIORS, MACH3, ROLLAROUND, ENDURANCE, BRAVE STARR.

BONZO BLITZ, OPTION4 and OPTIONS transfers are removed, but they are still available if needed. Charges: £12.50 per disc (we supply the disc and return postage) regardless of number of games on disc. An inlay as proof of ownership of the tape version is required - allow for a maximum of 6 games per disc, although often more will fit on. Also let me know which machine you have, I have different versions for each machine in a few cases. PLEASE NOTE, LOADING SCREENS ARE NOT ALWAYS INCLUDED - if you definitely want them say so. Will do if we have them ! *NOTE NEWSLETTER SUBSCRIBERS PAY only £10 per SPECIALS DISC.*

BANK RAIDING without BANKS ?

Still available from LUKE A useful meddle! This program will work on any machine, virtually automatic, and will enable you to "grab" some of those otherwise "specials". Makes a good job of most HEWSON type loaders too, Yes including NEBULUS ! Recommended, a disc and a donation to Luke's Development fund -

LUKE IRELAND, 4 LONG WOOD, BOURNEVILLE, BIRMINGHAM, B30 1HT.

INFINITE WOTSITS and ETERNAL THINGIES

Gerard's BIGGY for BARBARIANS held until next issue: Meantime PRESS TAB on RICOCHET, SHIFT & TAB on OLLIE & LISA - just for fun.

HARRY'S CRUNCHY FILES AMAZING SAVING, Just like a sale at TESCO'S ! 42K PING PONG ? NAAAH ! 21K !

Harry's latest version will now compress HACKPACK [6128 FILES], BLITZOLD, BLITZ [and BUNLOCK], BLITZ4, BLITZNU, and single binary file transfers. Many examples quoted from happy users of savings up to 20K per game. A "built-in" option to run from BIGBONZO format too ! Harry will up-date your old version as a treat, if you've not got it yet then here's how: Harry supports a local children's cause, cheques made payable to HARRY MOORE will be used to swell the funds. Send cheque and disc to me, and I'll sort it out for you.

THE MASTER CRIMINAL RETURNS ! After a month at Queenie Hotel ? [EXAMS he said !] Take that stocking off your head, Simon !
Chop chop busy busy work work bang bang ! [Really ? C.]

I shall start again with the solution to the last problem. Applying some inverse logic should provide the answer. Dividing 128 by 2 gives 64. The square root of which is 8. The answer therefore is NOT 8. Those paying attention to BB 18 will have noticed that the Aliens patch address should have been &80a2 and not &8082 as I printed - I thought I'd make you sweat it out a bit. If you want a neat screen then patch up the screen with your faithful artist jobbo and type this in, save it as ALIENS. (prog by Keith Hankin).

Running ALIENS will give a perfect load!

Here's a small list of those definite transfers:

AUTOPATCH : Stainless Steel, Equinox, Herbert, Thing On A Spring, Avenger, Future Knight, West Bank, Jack The Nipper

SPEEDPATCH : Magmax, Gameover, Xevious, Arkanoid, Nemesis Warlock, Saracen, Brainache, Silent Service, Grand Prix wotsit, Dizzy, Pro Ski Sim

KEYRAID : Willow Pattern

MANUAL : Krakout

TRONICFER : Strike!!!, Stormbringer

[Thanks to Frank Ryan for most of the above]

Bankraid II : RED LED goes as follows : Patch &8448; Mode 1; Locate &30 [that's courtesy of Keith Miller]

I expect it will go Manually with Raid 3 : patch as above, Locate as above !

LATE NEWS : A proper 464+64K Ram version of Bankraid III is available now, (thanks go to Tony Halford) and it is identical to the 6128 version.

Very busy month this, back to normal in two months !! A quick thought to end with : If 10 people can watch a 2 hour video in two hours, how long will it take 20 people to watch the same video ?

On a final note (middle C ?) how many viewers out there have been with Bonzo since news 1 ? The Bonzo Institution (was that the right word ?!?) needs YOU! Don't forget to post your subs for News 22 onwards NOW !

Anyway, enjoy the rest of news 20. What do you mean this is the end? Oh the end for me, what do you mmmeean (I've been chopped!)

NEWSLETTERS & PRICES

Enough [well, nearly !] subscribers for 22 and beyond for me to confirm that the news will continue. It's £12.50 for one year (TEN issues), or £7.50 for six months (FIVE issues). The cheques that I was holding pending the decision will be banked before the end of May. Very many thanks for the convincing support you have shown. From issue 22 we plan to improve "readability" by decreasing the number columns from 128 to 90, and adding another page to compensate. Any other ideas would be welcome, let me know what you like/dislike etc. Yes, I know what you like Simon - but just eating the legs is wasteful !

BACK ISSUES

Issues 1-7 are available in a ten-page summary, devoid of waffle [hurrah !] for £1.75. Issues 8 to 19 are available at 50p. + SSAE as singles, or the full works of this idiot - 1-7, plus 8 to 19 for £7.50. Do you need them ? Probably not !

SPECIAL SPECIALS

A new feature to help offset the £12.50 [£10.00 for subscribers] SPECIALS. Each month I will sort two special discs to go at the old price of £6 each. To make it more adaptable I've sorted them out in "sides", any two sides makes one £6 special. **LORICIELS STRAIGHT SIX [2 - SIDES]. TRIVIAL PURSUITS & QUESTIONS [1], GRYZOR 6128 [1], HYPERBOWL+FLYSPY+NINJA[1], ALIENS+TARZAN[1], THING ON SPRING+THINGII+BOUNDER[1], AGENTXII-ALL[1], DRACULA-ALL[1].** Yes, I MUST have the inlays which will be returned with the disc AND your cheque for £6.

FINALLY.....

There's still a mountain of stuff to wade through for future issues, but what I do need is as many reports as you can send me. I know it's a 13p stamp, a scribble on a sheet or anything, but it's invaluable to everyone in the long run. You'll not get an acknowledgement - but it will be the basis of the future newsletters. News 21, the last of the "cheapies" will be early July. If you pack up your computer for the summer, well done ! I wish I could. At this point Simon, with hair ablaze, wearing a bottomless galvanised dustbin, and making "choo choo" noises is heading at speed towards me. There's a glazed expression on what passes as his face..... I think I forgot the jelly babies this week ! **HELP.... Colin. NEMESIS**

JULY 1988. No. 21. THE LAST HALF-NOTE NOTES

GREETINGS !

Well that's it then, no more el-cheapo Beano ! From now on only the blatant rich and/or addled brain meddlers will be getting their regular dose of cranial isometric work-out ! I estimate that somewhere in the region of 50% of all subscribers have re-subscribed for the treatment that will be dispensed with issues 22 onwards - not at all bad. Note the try-out of the "readability" change, and various other eyeball delights, can it get better? Simon says it will if I don't pick it. He's getting cheeky now that he's got his own spot [and I certainly won't pick that !].

The BIRMINGHAM BONZO BOYOS reported actually meeting up with someone this time ! Only one mind you, but it augurs well for the Centenary Celebration in 2088. Several lone show visitors reported finding no-one, and our Simon wonders who had the best deal.

Phil Wharfe's become a double agent [bought a DAKTARI], and when last heard from was trying to train a kitten to push the plastic mouse around so that he could get some time on a real computer [CPC stupid !]. Simon's put in a bid for a 5000 gigabyte Cray, muttering something about "that's a lot of fish - who's buying the chips ?".

Apologies are due to Dave Crossman for including his advert. for some goodies, but excluding his address in issue 20 ! I've put it right this time. Two adjacent commas in line 60 of the first file for the CYBERNOID bust fooled some of you. Delete one of them and it's OK, sorry. We put that right on the first re-print. Phil the Druid seems to have gone on an extended adventure, we would like to know how, where and what you are at Phil ! A short report from me [Not that sort Simon !], ROMS definitely clog up the works, OK ! As you can tell, sanity is still the missing ingredient - and things are not likely to improve whilst I get letters addressed to SIMON BOSSMAN, and SIMON 'IMWATDUSALLDEWURK.

Simon is running around in circles, alternately playing ENTRY OF THE GLADIATORS on a paper and comb, and shouting "Do my bit, do my bit !". Any more of that and I'll nail his other foot to the floor. Commonsense suspended for;

SIMON'S SPOT This may have suffered in translation from Simonese.

It seems that Simon has transferred with OPTION 1 a game called FRED. There are two files on the disc - FRED.BAS and FRED.BIN. FRED.BAS is a very simple loader;

```
10 MEMORY &3FFF: INK 1,26: INK 2,2: LOAD"FRED": CALL &5000
```

It doesn't work when Simon types in RUN"FRED". What should he do [NOT write to me !]. Very elementary for most of you, but not so simple if you are new to "meddling". Answer next issue.

MULTI-LOADERS

I won't bore you again with the obvious reasons why we cannot automatically get these completely to disc. Sometimes the extra files are in normal AMSDOS style, no problems for the likes of WORLD CLASS LEADERBOARD, ROAD RUNNER, GUADALCANAL. Again, sometimes, a mad meddler will work out some means of doing them and they become "specials" like, AGENTXII, GRYZOR, OUT OF THIS WORLD, DRAGONS LAIR 1 & 2, FRANK BRUNO's BOXING, SLAINE, KNIGHT GAMES, TRIVIAL PURSUITS, DANDY. For the most part they don't, can't, and who wants to re-write 100K of code anyway ! Latest nasties are KRYPTON FACTOR and EVERY SECOND COUNTS. Very amusing is NOT A PENNY MORE, NOT A PENNY LESS - where a desperate attempt to use the same version for tape and disc, with the tape version not allowing transfer to disc [the disc version has more files], has resulted in the classic "shot in the foot !". The tape version won't run on a 6128 ! The current compilation version of FRANK BRUNO gets a complete transfer to disc, but will need close attention to get the "boxers" to load. I'll maybe sort that for issue 22, meanwhile it's a special. The ones you can definitely forget [buy the disc version if you haven't already bought the tape !] are: EIDOLON, NIGEL MANSELL, GAUNTLET 1&2, COMBAT SCHOOL, PLATOON, OUT RUN, RENEGADE, WORLD GAMES, ARKANOID 2, LEVIATHAN, SUPERCYCLE, KILLED UNTIL DEAD, KRYPTON FACTOR, EVERY SECOND COUNTS, INDIANA JONES, FLASH GORDON. In the majority of cases you will at least get the main file - saves some 5-8 minutes tape loading time.

COMPILATION NEWS

A bit of confusion unravelled by Stuart Herman concerns;

MICROVALUE 4 GREAT GAMES 2 - true situation is, KING TUT - OPTION1. COPOUT - OPTION4. FUTURE SHOCK - OPTION 1, but loader in NEWS 17 needed. BATTLE OF PLANETS - OPTION 4. **KONAMI ARCADE COLLECTION** All BLITZ except HYPERSPORTS [will I fix it and get both parts ?]. Note that JACKAL, NEMESIS and JAILBREAK go under the new file BLITZ5 [Not really worth up-dating for yet !].

TRIPLE DECKER - ALTERNATIVE

CLASSIC MUCHER - OPTION1 [CRUNCH to save 6K]. CLASSIC AXIENS & CLASSIC INVADERS - OPTION2.

BACKPACK COMPILATION

BARRY MC. BOXING - BLITZ. MARSPOUT OPTION 1 [LOADER LATER !]. NIGHTSHADE - BLITZ. STARION - as BIG BUST in NEWS 17. 3D STARSTRIKE - OPTION 1. XENO - as BIG BUST in NEWS8. The rest, SUPERSLEUTH, MONTY ON RUN, NIGHT GUNNER, THING ON A SPRING all specials. [a £6 cheapie if you like !].

SIX-PAK VOL 3 - ELITE

GHOSTS & GOBLINS, PAPERBOY & ENDURO RACER (!) - OPTION 1. LIVING DAYLIGHTS - OPTION 4.

OPTION 1 * = see notes following.

Rally Driver needs a couple of mods that aren't so obvious as the loaders for the other games. List and modify, LINE 122 DATA &21,&99,&01 delete rest of line. LINE 123 - make the second byte 5 - equal to the length of the filename in the last line - DATA NAME, -1. OK ?

OPTION 2 but use 2X

Never lets us down ! THE INHERITANCE [PART 1], EYE, DARTS 180 (revised)

Use OPTION2X to transfer EYE, it'll crash conveniently after displaying the piccy. Now transfer the remainder [one file , EYE2] with OPTION 1. Simply RUN"BACK1" and you're away. Being a clever-clogs I renamed BACK1 to EYE ! *DON'T BUY "EYE" if you don't have a COLOUR MONITOR.* Our reporter for INHERITANCE found it so "naff" that he couldn't be bothered to see what happens to PART 2 !

As reported last issue, the new/compilation release of DARTS 180 has a slightly different loader. Identified by the fact that the filename is NOT "*****". Guess what they've done [NO! SIMON, you're the only one that does THAT ! Stop it now !]. They've added about 4K of "garbage" to the flashing file, overwriting our routine. Well we don't need the garbage, and all that is required is an extra line added to the GETMAST file. Thereafter transfer as usual. The transfer will take place BEFORE the tape has finished loading - we just don't want the extra "garbage" like I said.

OPTION 3 - Looks like everyone has BLITZ !**OPTION 4** Not to be confused with the MENU OPTION !

ANGLEBALL goes with OP4 - it does still go with HACKPACK. Full known list is;

BATTLE OF THE PLANETS, COPOUT, FROSTBYTE, JACK THE NIPPER, EVERY WALLY, SAS STRIKEFORCE, AVENGER[not the S'lock early vsn.] **FUTURE KNIGHT, EQUINOX, FOOTBALLER '0 YEAR, LIVING DAYLIGHTS, HERBERT'S DUMMY RUN, 3 WEEKS IN PARADISE, and TANKEBUSTERS**[some versions, and probably 464 only !], **2112AD, NEXOR, ARKHAM MANOR PT2., FRANK BRUNO**[main file], **DARKSTAR**[FIREBIRD]. **ON THE RUN** [early versions], **ANGLEBALL.**

OPTION 5 Not to be confused with the MENU OPTION ! * = reported terminally ill !
 New reports are SWORD SLAYER, STAR TROOPER and GUADALCANAL [OPTION 1 picks up subsidiary files making it a neat MULTI-LOAD full transfer]. The list is,
BACK TO THE FUTURE, SPACE ACE, JOE BLADE, HIGH FRONTIER, STAR RAIDERS II, ENDURO RACER, HOWARD THE DUCK, CHMP BASEBALL, TERROR OF THE DEEP, WONDERBOY, QUARTET, NIGHTMARE, XOR, SUPERSPRINT, HIJACK, DRILLER, INTERNAT. BUNLOCK Later Speedlocks

One of the files that resides on the BLITZ disc [by the name of BLITZ !], this is also on BSM1988 and takes care of at least;

ARMY MOVES - both, COBRA STALLONE, DONKEY KONG, GOONIES, GREAT ESCAPE, ARKANOID, BMX SIMULATOR, EXPRESS RAIDER, LEADERBOARD, TOURN. LEADERBOARD, MIKIE, SARACEN, TOPGUN, MINDSHADOW, LEGEND OF KAGE, VAMPIRE. HIGHLANDER[See 19], SHAO-LIN, TENTH FRAME.

From my knowledge of the BLITZ file I know there are a number more, but I am reluctant to "report" them without confirmation.

BONZO BLITZ — THE SPEEDLOCK CRACKER ; New report:
INTERNATIONAL KARATE + on the compilation is BLITZ4 as against previous OPTION 5.

HACK PACK

Note that LR = LAST RESORT. EX = EXPANDED MACHINES ONLY. TA = Press TAB AFTER tape stops. BEACH BUGGY SIMULATOR, HUNTER OF OCTOBER. (There's loads more than that ! C.)

GOLDEN MOULDIES?

The el-cheapo WAY OF FIST goes with HI-BONKEY, but not BLITZ ! So I am advised twice !

DOO DAH A long list of OK recent clones from Frank Ryan.

BRAXX BLUFF, BOUNDER, PP8 GAMES DISCS 1 & 2, AMTIX STAR GAMES 4, PROTEXT, V, MINI OFFICEII NEXUS, PITMANS TYPING TUTOR, KONAMI COIN OP HITS, ROAD RUNNER, SCRABBLE, SPITFIRE 40, TANK COMMANDER, TORNADO LOW LEVEL, TRIVIAL PURSUITS, WAY OF TIGER, SOFTWARE PR 4 PACK. PIRATES. NO-GO are GET DEXTER and DAN DARE. The full list of WILL GO is very, very long. [Is it really Simon ? No ! I don't want to see it - thankyou.]

SPECIALS

These programs, that cannot be done via BSM, or any utility [some can be done via BANKRAID on a 6128] short of a magic box, represent the hard work of a number of gifted "meddlers", plus the ones that I do myself. * = Do it yourself with BANKRAID !

MOONCRESTA, STARSTRIKE2, DRUID, NICK FALDO PLAYS SOMETHING, GET DEXTER. SAI COMBAT, NIGHT GAMES (2 full sides), ZAXXON, BOUNDER*, THING ON A DING*, ROCKY HORROR, STAINLESS STEEL*, TOMAHAWK, TRIVIAL PURS* (main file only), TLL*, FIGHTING WARRIOR, MERMAID MADNESS, STARGLIDER, NODES OF YESOD, SPLIT PERSONALITIES, GALIVAN. EAGLES NEST. KNIGHT RIDER, BIGGLES, MISSION ELEVATOR, TARZAN, HYPERBOWL, NINJA, FLYSPY. HOLLYWOOD OR BUST, DANDY, ALIENS*, SUPERSLEUTH, FEUD, SUPERMAN, THAI BOXING, LORDS OF MIDNIGHT, DYNAMITE DAN II, 5TH AXIS, CYCIT, AUFW MONTY, STRIKE, PRODIGY, ONE, MERCENARY, AMAZING SHRINKMAN, MOVIE, BACTRON, INFODROID, AMERICA'S CUP [6128], THING II, NIGHT GUNNER, MISSION GENOCIDE*, HACKERII, BUMPSET STRIKE, SOLOMONS KEY, CENTURIONS, TRANTOR, BOSCONIAN, JACK NIPPER2*, SPACED OUT, GARY LINEKER, AGENTXII, OLLIE & LISA, RAMPAGE*, RYGAR, DANGEROUSE, CITY SLICKER, COSTA CAPERS, DEFLEKTOR, FINAL MATRIX, ATF, DRACULA [3 parts - one side], GRYZOR and OUT OF THIS WORLD [6128 only, a FULL side each], FORBIDDEN PLANET, BILLY, FLASH, MGT, ZOZ2099, BASIL THE GREAT MOUSE, INSIDE OUTING, CAMELOT WARRIORS, MACH3, ROLLAROUND, ENDURANCE, BRAVE STARR. TERRAMEX, BASUN, NORTH STAR, TOUR DE FORCE, SLAINE, SIDEARMS, UNITRAX

BONZO BLITZ, OPTION4 and OPTION5 transfers are removed, but they are still available if needed. Charges: £12.50 per disc (we supply the disc and return postage) regardless of number of games on disc. An inlay as proof of ownership of the tape version is required - allow for a maximum of 6 games per disc, although often more will fit on. Also let me know which machine you have, I have different versions for each machine in a few cases. PLEASE NOTE, LOADING SCREENS ARE NOT ALWAYS INCLUDED - if you definitely want them say so. Will do if we have them ! NOTE: NEWSLETTER SUBSCRIBERS PAY only £10 per SPECIALS DISC.

INFINITE LIVES AND INFERNAL THINGIES

The promised "goody" from Gerard. Not only will it give you a cheat mode, but you can get all of BARBARIAN to a BIGBONZO format by using Harry's screen cruncher. The listing virtually explains all. After crunching transfer all files [re-named] to a BIGBONZO FORMAT disc, there will be 3K free ! Reset your machine and erase the BIGBONZO file. Replace with the DISC.BAS file that follows the listed MENU.BAS. Run "DISC" !

Hi Crims !

Clean shirt, new shoes, and I don't know what I am gonna dooohhh! Ah there you are - BOTH of you ! Cor, is it summer all ready? Most people pack their Ammies away during the summer (not me boss) which means that very little gets reported. I advise everyone out there to pack their computers away for at least 5 minutes, unpack them - on with the news. I thought BOB SLEIGH was Santa Claus's (I didn't say he exists) stable boy, but I am advised otherwise. Here's the transfer : [Raid III] Run DISC with Bankraid disc in drive, select install, and press return. Run this below, with tape in deck. When loaded, use P to save out as prog - screen not needed. Just before I go - a warning. We Amstrad users have severe problems - one or two of the magazines are now giving 60 pages for £1.25. This leaves us only with the Alcoholic Therapy group (think!) to provide worthwhile reading material. Don't buy the garbage - support the users : take a look at Wadamigonaread. Start now before its too late. That's about it - the last of the old style news's. A sad farewell to those who won't be here with 22, for the rest, who knows - I might see you next month (that's more like it - suspense, mystery...)

NEIL

JAMES ROGERS — SUPERSTAR The "mystery" BIG BUST of JACK NIPPER 2
Once in a while I hint - only the canny spot it, only the keen pursue it. With commendable logic James decided that the KRAKOUT BIG BUST must do something else - it does, JACK THE NIPPER 2. Well done James ! THING2, AUF MONTY and DEATWISH3 don't - so don't go frantic !

SPECIAL SPECIALS

This is way to get your "specials" at just £6 per disc. We supply the disc and postage. A "standard" set of discs enable me to quickly copy the masters, saving copying and searching time. HARRY's CRUNCHY FILES

From a total of 61K each these represent typical disc saving space by using Harry's amazing files:

METROCROSS to 46K. **EXPRESS RAIDERS** to 52K. **IMPOSSIBLE MISSION** to 45K. **TENTH FRAME** 36K. They're just **BLITZ** transfers. Harry's files will deal with the main **BLITZ** options, **HACKPACK** 6128 transfers. **OPTION 3** and **5** transfers, any "stand-alone" binary files, and any screens. Mark Lawrence observing that many "meddlers" don't know how to create a stand-alone file has come up with the definitive answer, so impressed with the **CRUNCHY** files was he ! Mark's article will appear in **NEWS 22**, wait for it !

In the meantime you should be aware that the **CRUNCHY** files are NOT for sale. Harry is a willing fund-raiser for a local children's cause - and what he wants are donations please! Send a disc to me, with a cheque for your donation made payable to **Harry Moore** and I'll do the rest. I'd appreciate a stamp too - my sideways contribution in terms of postage and Jiffy-bags is getting a bit steep !

How does "Crunching" work ? A long answer made simple. If six bytes are 45,45,45,45,45,45 then it's clear that they can be represented by &ff[marker], &06 [the next six bytes are], 45. That's just 3 bytes. Work from that and improve it, and you can write your own ! Obviously it's very complex finally, but screen crunching alone is fairly easy.

Amstrad Action will carry the annual Summer Sales offer of any three discs for £30. Not a lot of use to some of you who have the BONZO essentials. If you don't have BLITZ or DOO DAH then you really should have them. If you haven't got FLASHPACK then you are missing something better than UTOPIA [and that is Alastair Scott's WACCI opinion]. If you've not got BIG BATCH you'll never win the pools, and if you like adventures and haven't got the adventure disc - then I'm ashamed of you !

Ain't it odd that recently MAGNETIC SCROLLS were applauded for the innovation of "no deaths" in an adventure. Four of the five that I wrote don't have either ! Another was applauded for the "first" adventure HEROINE [No Simon, it's got an "E" on it] - really ? Nuff sour grapes, I'll write this quickly so that not too many of you read it !

UNTIL JULY 30 ONLY - ANY two discs, £16. What are they ? All normally £12.50 each.

[1] DOO DAH. [2] BLITZ. [3] BSM/HACKPACK. [4] FLASHPACK. [5] BIGBATCH. [6] THE ADVENTURES.

Exclusions, NO TRADE, NO ACCESS. NOT after 30th. July. Include - "specials" discs.

BYE BYE !

It is inevitable that some subscribers at the old rate will not deem it worthwhile to re-subscribe at the new rate. I doubt that I would, but understand why a good proportion of you have re-subscribed. This issue is a "test" for the changed format, hence the extra pages - and from issue 22 onwards it can only improve. We are still depending on YOU to tell us what you know - for the benefit of ALL readers.

If you haven't sent £12.50 for the full year [10 issues], or £7.50 - six months [5 issues] then this is your last BULLETIN. If you have subscribed then many thanks, can we have some input from you from time to time, please ?

BACK ISSUES ? Still available. Issues 1-7 compiled in a "waffle free" form are £1.75.

Issues 8 to 20 are 50p. each (plus a stamp), the complete works of BONZO, 1-7 and 8 to 20 are a frightening £8.00. But it may rain until Christmas !

To those that go, it's a BIG BONZO BYE BYE from all at BONZO TOWERS. MIAOW !

BYE BYES !

I used to call this bit *FINALLY*. First the thanks to all who sent in super news, views, hacks, mags, and cheats. There's a lot unused, wish I could fit everything in. [No Simon, you'd very likely never get it back. In any case electric pencil sharpeners are nasty !]. Any BFFO "meddlers" in West Germany should drop me a note, so that I can re-circulate each of you with names and addresses of the others. Rank is not important - let's face it, if it's very rank you wouldn't be there !

Future plans ? Looking very closely and getting very intrigued by the idea of a NEWSWEEP - TYPE of BONZCOPY. Multi-format handling, but excluding the "squeeze" facility. The prospects of a rapid screen edit and dump utility look good. To sort out the things like the BIGBUST logo for example. ISSUE 22 ? I've masses of cheats, and big busts to choose from. The treat will probably be a screen - grabber from disc files. All I really need is plenty of notifications of new games from YOU ! That's if there are any, of course.

Lots of you write, and I do my best to answer - but you could help in many cases by sending a disc ! If you are querying a transfer, then send the tape too ! Obviously if my answer is going to involve lengthy explanations and lists, the provision of a disc will save us both time. One file equals a lot of words. Apart from that I can always use it to put any up-dated BONZO files on.

For the last hour Simon has been marching up and down with his hands around his throat saying "Evenin', Evenin' ". That's right, it's Simon Charades. Namedat Choon !

AUGUST 1988. No. 22. AMAZING DISCOVERIES by THREE SIMONS !

GREETINGS !

The amazing news is that SIREN have finally twigged what "STAND ALONE" means, not surprising is the fact that D+ lags a long, long way behind BSM. Various publications are announcing an assortment of new "AMSTRADS" due to appear, all based upon one morsel of information that may, or may not, have some substance. Time will tell [No Simon, not THAT Will Tell. Take the apple off your head !] **EXTREME SCREAM:** D'you know of JRT3 PASCAL ?? Our Simon [as opposed to the "Noisy Northerner" and Simon Simpson] wasn't offered any jelly babies in the last issue, which was the deliberate mistake that most of you spotted! Simon Simpson's wife confirmed Simon's "meddling" abilities by presenting him with another mouth to feed. The offspring is named April, confirming my suspicions that if your name is Simon then you'll be a bit behind the times ! Our Simon was "bit behind the Times" by Blitz the cat when trying to read the aforementioned newspaper ! [Yes, it was upside down. Eventually Simon put the newspaper to good use by cutting out a jacket with ten sleeves that he wears when in medieval mood ! I'll tell you why later.]

Simon [Simpson, that is] got back up to date by buying **CHART BUSTERS 20** and finding that with three exceptions they all transfer OK. 17 on disc from a £10 tape can't be bad eh ?

I'm behind the times with answering letters as usual, much to the disgust of Colin Evans, Dave Coggins, Alastair, Neil, Ron, Keith, Chris, Norman, Stewart, Bob and probably a few others by the time you read this. It's the paradox that if I know you quite well then I'll keep you waiting as I think you'll understand the situation. If I don't then I'll reply pronto, 'cos that's the right thing to do ! I guess you'll all be adopting pen names to confuse me now ! Sometimes I get really exotic [No, not erotic Simon ! Harm can come to a young lad like that !] letters, like one from a Head Hunter in Papua New Guinea ! If you want some really rare stamps on your mail then pay attention when we get to the back page ! **SIMON'S SPOT** was much picked last month, so here's the answer and yet another of Simon's Screw-ups to unravel. Oh sorry, little acne lad; he wants me to tell you that the Times cut-out is his Coat of Arms. Grief, dribble, mumble !

SIMON'S SPOT Translated from Simonese by Stanley Unwin.

The answer to the issue 21 problem was simply that the load command should've read **LOAD "FRED.BIN"**. It wouldn't normally matter about leaving out the 3 character suffix, but in this case your CPC has two **FRED** files. If the suffix is not included then **Amsdos** looks in turn for a blank suffix, **.BAS** and then **.BIN**. In this case it finds **FRED.BAS**, which in turn finds **FRED.BAS** etc., etc. !

Simon's problem this time concerns another **OPTION 1** transfer, the files are **FRED.BAS**, **FRED1.BIN**, **FRED2.BIN** and **FRED3.BIN**. Interestingly **OPTION 4** from **BONZO** shows the parameters for ALL three binary files to be the same - **START &4000**, **LENGTH &0200**, **EXECUTE &0040**. The basic file reads:

```
10 OPENOUT"D":MEMORY &3FFF:CLOSEOUT
20 LOAD "FRED1"
30 LOAD "FRED2",&A600
40 RUN "FRED3",&0040
```

Why doesn't it run from disc ? Simon says that it's because the ASCII code for the letter "F" isn't recognised by the CPC unless it's a basic file, and in any case his cardboard knickers have got a staple in them. Answer next time.

MULTI-LOADERS

Latest news concerns **THE BARD'S TALE**, which is so damn long you'll do yourself a favour to buy the disc version anyway. It is possible to juggle it about so that it all transfers and runs from tape - but you're stuck with tape saves, and you'll need to do that a great deal. **BIONIC COMMANDOS** and **CHAMONIX CHALLENGE** should also be acquired as disc versions. Simon thought his cardboard knickers were a **CHAMONIX CHALLENGE** but I think he means a different kind of "NIX". Just seen **CAPTAIN BLOOD**, another multi-loader, the main file has been hacked out [as have **CHAMONIX** and **BIONIC**] so I have them if you are stuck. It's not too bad as the levels do load fairly quickly. Disc version of **BARD** "clones" with **DOO DAH**.

COMPILATION PERSPIRATION

Simon [the breeder] sorted out the CHART BUSTERS 20, but allow for the fact that he's losing plenty of sleep:

CHART BUSTERS 20 OPTION 1 - F.A. CUP FOOTBALL, BRIAN JACKS (BOTH PARIS), TAU CETI.
 OPTION 6 - GHOST BUSTERS, KANE, LA SWAT, DAN DARE, FORMULA 1 SIM.
 HACK PACK - NINJA MASTER, RASPUTIN, RICOCHET, ZOLYX, I BALL, THRUST
 -""- PARK PATROL, HARVEY HEADBANGER, WAR CARS.

That leaves OLLIE & LISA, and AGENTXII as "specials" - the latter is a 3 part job. WAY OF FIST is likely to be HIBONKEY !

COMPLETE HOME ENTERTAINMENT ALL go OPTION 1 and only MACADAM BUMPER needs any attention. Nick Geeves reports that the 1-7 summary loader does it. Here it is,

```
1 REM: MACBUMPER: FILES MACADAM.LAY/PRG/SCR and MAC - OPTION 1, RELOCATE OFF
20 LOAD"MAC",&BKD0:FOR X=&BKD1 TO &BKDC:READ A$:POKE X,VAL("&"+A$):NEXT
30 POKE &BF37,82: CALL &BKD0
40 DATA H0,AE,11,88,A9,0E,07,CD,CE,BC,0,0
50 REM POKE IN LINE 30 ONLY NEEDED IF YOU HAVE A FILE WITH SUFFIX .SCN
```

COMPUTER HITS 4, revisited Glenn Bantock rates DEACTIVATORS and TRIAXOS both as HACKPACK and not as the 700+ list. There have been variations on this compilation.

OPTION 1 * = see notes following.

Latest news concerns,

ROGUE*, MAD FLUNKY*, DERVISH, MACADAM BUMPER*, BATTLESHIPS*, TWICE SHY, ASTROBALL.

Make a note of the last mentioned. As John Brown points out this is an excellent program on which to learn a few tricks about infinite lives etc. The basic program calls code routines, and these are very easily modified to suit your fancy. Try it !

Reports are down this month, not surprisingly. One version [not the compilation] of MACADAM BUMPER I have seen DID NOT run from tape on a 6128 ! Here's the simple loaders you can use for the above mentioned, plus an explanation of last month's RALLY DRIVER - but this can be done by HACK PACK anyway.

BATTLESHIPS 10 OPENOUT"D":MEMORY &7d43:CLOSEOUT:LOAD"ELITE.BAS":CALL &7d44

MAD FLUNKY 10 OPENOUT"D":MEMORY &1ff:LOAD"????":CALL &200

RALLY DRIVER Confusion over last issue explanation of what to do with the loader was caused by the fact that the last line carries the FILENAME, yes, but in ASCII numeric values ! Also name the basic loader something totally different, or "FRKD" problem arises ! Try the last line [of DATA] as 125 DATA &52,&41,&4C,&4C,&59,-1. Line 122 is just DATA &21,&99,&01 and second byte in line 123 is 5.

ROGUE Alastair Scott sorted this out as follows. Transfer all with OPTION 1. Erase ROGUE.BAS and SCR.BIN and rename ROGUE.BIN to R.BIN. Type in the following, save it as ROGUE, and run it. Saved games will still be to tape - not so bad really !

```
10 MODE 1: FOR A = &be80 TO &be94: READ B$
20 POKE A,VAL("&"+B$):NEXT: CALL &BE80
30 DATA 6,1,21,94,be,cd,77,bc,21,40,0,cd,83,bc,cd,7a,bc,c3,40,0,52
```

OPTION 2 but use 2X

Just scraped in to continue the success of this OPTION - something of a surprise - DARKSIDE [use 2X]. More "offbeat" was a single report of SPINDRONE, always been OPTION 1 until now, unless I misread the report. GNOME RANGER, is a 2X job, just as expected.

OPTION 3 - Everyone uses BLITZ - don't they ?**OPTION 4** Not to be confused with the MENU OPTION !

Well worth digging back with this OPTION - especially with some older MASTERTRONIC games. I've just discovered that ASTERIX [also HACKPACK] and STORMBRINGER transfer a treat ! Full known list is :

BATTLE OF THE PLANETS, COPOUT, FROSTBYTE, JACK THE NIPPER, EVERY WALLY, SAS STRIKEFORCE, AVENGER[not the S'lock early vsn.], FUTURE KNIGHT, EQUINOX, FOOTBALLER O'YEAR, LIVING DAYLIGHTS, HERBERTS DUMMY, 3 WEEKS IN WATFORD, 2112AD, NEXOR, ARKHAM MANOR PT2., FRANK BRUNO[main file], DARKSTAR[FIREBIRD], ANGLEBALL, TANKBUSTERS[early vsn. 464 only], ON THE RUN[early versions], ASTERIX, STORMBRINGER.

OPTION 5 Not to be confused with the MENU OPTION ! * = reported terminally ill ! Recently seen a copy of BIG TROUBLE IN LITTLE CHINA - no problem. Also note that RAMPAGE will transfer with OPTION 5X, start transfer just prior to the CL2 file on the tape. BACK TO THE FUTURE, SPACE ACE, JOE BLADE, HIGH FRONTIER, STAR RAIDERS II, ENDURO RACER, HOWARD THE DUCK, CHMP BASEBALL, TERROR OF THE DEEP, WONDERBOY, QUARTET, KNIGHTMARE, XOR, SUPERSPRINT, HIJACK, DRILLER, INTERNAT. KARATE+, TETRIS, REFLEX, FIRETRAP, CHAMP SHIP BASKETBALL, DIZZY DICE, TANTUM, RADIUS*, SHANGHAI KARATE[pt.1], CHAMP. SPRINT. METAL ARMY. GB AIRRACE[MF], SWORD SLAYER, STAR TROOPER, GUADALCANAL, BIG TROUBLE L/C, RAMPAGE[5X].

OPTION 6 * = refer to NEWS 20.

ESPECIALLY note that the 20 CHARTBUSTERS compilation seems to include a number of OPTION 6 transfers that would normally not be - and are not listed here yet ! Seems that DAN DARE has a record of numerous loaders, each needing a different OPTION. So far there has been a version for OPTIONS 2,3,6 and HACKPACK !

ANARCHY, SWAT, GRAND PRIX TENNIS, ENERGY WARRIOR, KILLER COBRA* & re-issued ALIEN 8, GHOSTBUSTERS, MOL'C MAN & SABRE WOLF, KUNG FU MASTER [AMERICANA]

OPTION 7 The LORICIELS BIG BUST of issue 21 !

Just qualifies as a "REAL OPTION" by virtue of a couple of reports, makes the list : PRO TENNIS, SOCCER 86, 3DFIGHT, BILLY, ZOX2009, and FIFTH AXIS. There's a few more ?

BUNLOCK Later Speedlocks

One of the files that resides on the BLITZ disc [by the name of BLITZ !] , this is also on BSM1988 and takes care of at least -

ARMY MOVES - both, COBRA STALLONE, DONKEY KONG, GOONIES, GREAT ESCAPE, ARKANOID, BMX SIMULATOR, EXPRESS RAIDER, LEADERBOARD, TOURN. LEADERBOARD, MIKIE, SARACEN, TOPGUN, MINDESHADOW, LEGEND OF KAGE, VAMPIRE. HIGHLANDER[See 19], SHAO-LIN, TENTH FRAME.

BONZO BLITZ - THE SPEEDLOCK CRACKER ; New reports:

* ~~PRAGUE BRIDGE [I think it's a war game], GALIVAN ['ODD, took a while for that to surface !], SUPER HERO, and a reminder of SPACE SHUTTLE.~~

SAILING is an obscure type 4, not yet sorted out - is it worth it ?

HACK PACK

Note that LR = LAST RESORT. EX = EXPANDED MACHINES ONLY. TA = Press TAB AFTER tape stops. SKATEBOARD KIDZ, STUNTBIKE SIMULATOR, and BIOSPHERES[Pt. 1].

Yet another TREAT for you - HACKPACK2, or HP2 as it is low voltage work. Just type this in and add it to your HACKPACK disc. It uses the other HACKPACK files, and is an "experimental" job that takes care of BLADERUNNER. Should also sort out RADZONE and others of the same ilk that we previously did under OPTION2 by saving a dummy file to tape first. Ought to be OK and give a more reliable result for the OPTION 1 "funnies" too.

CRUNCH BUNCH Mark Lawrence on How to create "Stand alone binary files".

Mark wrote recently somewhat dismayed to find that some meddlers of his acquaintance were unsure of how to CREATE a stand-alone file when their programs weren't already in that form. As he says, getting even more out of Harry's files isn't too difficult. Here's Mark's succinct explanations and examples:

CREATE - This is a simple basic routine used to create a self-booting, stand alone binary file. The program is self explanatory in so far as it gives prompts for all inputs, however the file parameters must be found by the user. Load address and file length can both be found using CUTEDISC or BSM, however it should be noted that while the file length figure will always be constant the address may not be correct. Some programmers change the load address in the basic loader. As you need to examine the loader program to find the entry address it is always worth while checking the start address. Some programmers hide these parameters in the program as strings, it is a simple task of finding where the appropriate string has been defined and getting the value. Other more devious methods I have come across have included CALLING the ASCII value of a set of characters (RYHB!).

If you have any pokes (ie infinite lives) you want written to the new program then press 'ESC' when asked for the file length, enter the pokes direct then type 'GOTO 60'. Remember these pokes will be permanently written into the program, so make a back-up copy of the original, you should have the original software anyway!

Once the new file has been saved the program will try to run it, the only problem I've had to date has been 'SUBTERRANEAN STRYKER' which gave an unusual syntax error when run but after crunching it, and saving 15K (33K if you count the loader and screen), it ran O.K.

```

10 MODE 1: INPUT "Old file name....";a$
20 PRINT: INPUT "Load address.....";x
30 OPENOUT "d": MEMORY x-1: CLOSEOUT
50 LOAD a$,x
60 CLS: PRINT: INPUT "File length.....";y
70 PRINT: INPUT "Entry address....";z
80 PRINT: INPUT "New file name....",a$
90 PRINT: PRINT "Saving.....";UPPER$(a$);".BIN"
100 SAVE a$,b,x,y,z :CLS: RUN a$

```

RENAME - If when you run the 'CREATE' program you get a funny looking screen then you will need a basic loader to set the screen to MODE 0. You cannot preset the screen mode then run the program as it defaults back to MODE 1. As the loader will only handle a 3 letter file name the binary file will need to be RENamed. The 'RENAME' program will do that and give you the ASCII values in hexadecimal to add to the data statement in the loader program.

```

10 MODE 1: x=1
20 FOR z=1 TO 3
30 PRINT "Enter letter";x;"of new filename - ";
40 a$=UPPER$(INKEY$): IF a$="" THEN 40
50 PRINT a$;: PRINT " - ";: PRINT HEX$(ASC(a$))

'xx' in line 40 of the 'LOADER' program"
110 locate 1,13: PRINT "Loading 'LOADER'": LOAD "loader.bas"

```

LOADER - The only clever part to this suite of programs, Colin's work I'm afraid I pinched it and utilised it to my own ends (WHY NOT! C.). Substitute the 3 sets of numbers you were given in the rename program for the 'xx' in line 40 and resave it under a suitable filename, this should run the offending program and cure the screen problem.

Look at this - Bonzo News has taken on lavish surroundings ! To celebrate I thought we'd have something a bit different. [Simon thinks "lavish" means something very different ! First time he's been right today, C.]

My thinking went : "Why not look at the Bankraid 3 loader - that way everyone else will be able to make changes to suit themselves."

The loader loads in at &a000, it is the 1k file that is saved. To load it in, use 'MEMORY &9fff:LOAD name,&a000' where name is the filename of that small file (by the way, don't type those squiggly (') thingies). Once in, you can start poking around.

A mode to a saucepan - The byte at &a001 is the screen mode and can be 0,1 or 2. Poke this if you must, or alternatively move on to &a066 which determines if a screen is to be loaded. If you have saved with a screen, but don't want it then poke &a066 with a non-zero byte. If you do this, you'll have to poke &a0e0 with &30. This changes the name to take account of the fact that you've robbed it of a file!

2.5 inches more or a ;B in the bonnet - So you've got a 5 1/4 inch drive or you want to load from drive B huh ? No problem! The byte at &a0bd is a call to &bcoe which resets Amsdos. Poking &a0bd with &21 will stop this and allow you to run from various setups, as long as you have previously installed the required software! (sounds painful - if you want to run from drive B then type ;B). If you do this then you MUST create a basic program thus : 10 MEMORY &9FFF:LOAD name,&a000:CALL &a000

It looks pretty daft but stops basic from reverting to tape ! (you know tape - its that slow loading, painful etc. system that makes you think data is coming in at 2 baud !)

Cash in the Bank - Nope, just registers. It might interest (nice pun with Bank there) you to know that the following locations hold the following registers:-

```
&A0f6 = HL (2 bytes)
&A0f9 = DE (2 bytes)
&A0fc = BC (2 bytes)
&A0ff = A (1 byte)
&A102 = IX (2 bytes)
&A106 = IY (2 bytes)
&A109 = SP (2 bytes)
```

There. That was nice and technical - change these at will, and feel free to put any numbers you like in! Before I go, the bytes from &a10b to &a116 are the execution bytes - but that's another story (you're bored too ?!)

Once you've made all these fantastic changes save the loader with 'SAVE name ,B,&a000,&140,&a000'. Then try it out and see what happens !

Did anyone recognise last months intro line taken from a song of my choice ? If so then congratulations - You've got a wonderful taste in music. If not then take that box off of your head and come into the real world.

That's it this month - I would say "Enjoy the summer", but I seem to have missed it somehow. Oh well, where's that umbrella OPENOUT: CLOSEOUT: HELP NEIL.

NEWSLETTER NEWS

Back issues of the old-style newsletters are still available. The de-waffled summary of issues 1 to 7 is £1.75. Issues 8 to 21 at 50p. each plus SSAE. The "complete works" 1-7, and 8 to 21 will cost £8.50.

From issue 22 the BULLETIN is only available by subscription, and as Bonzo's accountant wants standard renewal dates - issues 23 to 26 inclusive are £6. Issues 23 to 32 are £11 and back issues of any from issue 22 onwards will be £1.50 each. [ouch !].

The BIG BUST STAR WARS DROIDS

All you have to do with this is type it in and run it. Write-enabled disc in drive, DROIDS tape in Player - of course ! The loader is written to disc as well !

BONZO's PICNIC

Using a similar idea to HACKPACK this little bit of nonsense will load a game from disc [tape if you like] and on pressing TAB play will be frozen. Put your destination disc in drive, and you can save the screen to disc. Ready to edit, or dump to printer, or whatever. There will be two files, SCREEN1 holds the mode and colour info., SCREEN2 is the actual screen file. NO ! It won't work on everything ! The older the game the better, as any that use the interrupt will not work. Don't use it on files that use &BF80 as a load address [that includes HACKPACK] 'cos this does too ! Best bets are OPTION 1 type files, and if you load the games from tape you can try HACKPACK types. Just a bit of fun ! Use the short "DISPLAY" file to put your saved "screen" back on the screen.

WADAMIGONNAREADNOW?

WACCI from WACCI 59 The Green, TWICKENHAM, TW2 5TU. £1.00 plus a GIANT SSAE gets the works. !

SUGAR-CUBE Good news and bad news. The bad news is that Steve has reluctantly decided that lack of support, reader input, and heavy printing costs has made it "unworkable". The good news is that he has done a deal with UNITED AMSTRAD USER GROUP which effectively "merges" SUGAR CUBE. All subscribers will be offered transferred subscriptions to UAUG or a refund. Being as the UAUG mag. was due to get a mention here anyway, you know what my advice is ! UAUG are at 1 MAGNOLIA CLOSE, FAREHAM, HANTS, PO14 1PX If you are not a SUGAR CUBE subscriber, then try tempting them with a £1 for a "sample" issue. Looks fine to me, PD stuff available too ! I understand Steve will keep "active".

ADVENTURE PROBE - you will recall that this was "de-listed" recently. I did make it clear that the magazine was good, there was no risk to it's future, but as I was aware of certain factors concerning a change in control I was dropping it. Bob Adams points out that this makes no difference to the readers, and potential readers - it remains the best adventure "fanzine" available. Bob is writing a regular article for it - which is another "plus". Trouble is, I dunno what the form is for getting it now ! Consider it an "in" publication anyway, and I'll check with my moles. [Not YOUR moles, Simon. They are in a most unsightly place ! Take a jelly baby and go away.]

HEADHUNTING in PAPUA NEW GUINEA

GRAEME GARRETT, P.O. BOX 60 ARAWA, BOUGAINVILLE, PAPUA NEW GUINEA.

Graeme obviously doesn't get too much contact with local CPC meddlers ! He writes "My knowledge of hacking is negligible. So if anyone wants to help enlighten me I would be only too glad to hear from them." I reckon he'd be glad to hear from you anyway ! Incidentally, Graeme mentions that SUPERSTUNTMAN is a straight OPTION 3, but it is a keyboard only job. Has anyone wriggled a JOYSTICK option into it yet ? I've not had a chance yet, and Simon's idea of a JOYSTICK OPTION is pretty frightening.

FINALLY

Just room to tell you that Harry's Crunchy files are still available, refer to previous issues. Regular features missing this time will return next. I never know just what to put in the Bulletin [or what to leave out, that's the tough bit !]. I need your comments as a guide, otherwise I shall continue in the same haphazard fashion ! Usual apologies for missing this and that, and guess what Simon has made out of 6 cwt. of blue-tack ? A camel with THREE humps ! That's right, Humphrey Camel - I pass. Regards, Col. NEMESIS

SEP/OCT 1988. No. 23. THE ROYAL FAIL !

GREETINGS ! [YES - they're back, but where's Jack ?]

Well, it had to happen ! A newsletter that got written, re-written, and then scrapped. I awaited the resolution of the DISPUTE [are they afraid to call them STRIKES ?], and gathered in as much of your delayed information as possible in order to create this late but up-to-date issue.

A little of my own contentious waffle before we get on with the REAL stuff. I've noticed a tendency on the part of some hitherto respected software houses to lob out HOMOEOPATHIC SOFTWARE. That is with all the goodness removed, and with added roughage ! The rumour that OCEAN are preparing a double quick release of PARABOLIC ASTEROIDS starring BEN JOHNSON are of course absolutely true.

At least Simon restored some credibility by observing that he thought that the REAL dope-test is SYNCHRONISED SWIMMING ! Our Simon was away on his annual "hols" as the "posties" decimated our turnover and working capital. He announced that he was going FIRST CLASS as a treat. Duly engulfed in a large Jiffy bag, Simon was sealed up with the last of the 18p. stamps affixed and forced through the local collection box addressed to a questionable bordello in GREAT YARMOUTH. Three weeks after departure the same Jiffy was delivered back to BONZO TOWERS, with the address crossed out and marked "PUT AWAY - RETURN TO SENDER" ! Some hurried unwrapping revealed a pale Simon. Revived eventually with 2 bags of jelly-babies he was able to recount the full story. It seems that whilst impounded in a sorting office somewhere he heard a remark that used the phrase "Get TNT to deal with the parcels" ! As Simon said, it was rather fortunate that it was a brown Jiffy bag. Next year he's going to up the costs and travel by Telegram.

The trauma of the experience has left Simon wondering whether his mental powers have improved, because they can't get worse. The solution to Simon's Spot of last issue is quite simple, but what mess has he made for the new problem ?

A multi-thankyou to Frank Ryan who sent the most comprehensive list of recent transfers, with full notes and references. Much of the "news" is compiled from Frank's information and supported by further confirmations.

SIMON'S SPOT Translated from Simonese by the T.U.C.

Some of you thought that there was more than one reason for the failure of the basic file in the last problem. In fact they were all valid except LINE 30. Attempting to load FRKD2 to &A600 will overwrite part of the disc buffer area - and havoc will ensue. The only answer to it is to load it to a suitably free address, then LOAD FRKD3 to a higher address than specified. Now that it's all in memory we can lose the disc buffer, so a short bit of code should be constructed to shift FRKD2 to &A600, FRKD3 to &0040, and then JUMP to &0040.

Simon's present problem is of elementary proportions. He has this 35K long basic program which he has been running and modifying. Loads of variables and data in it - now that he's modified it to suit he finds that when he tries to save it to disc all he gets is a "MEMORY FULL" message. If he resets the computer, no program - and his little acne idea of pouring the excess stuff out of the machine via the joystick socket doesn't work ! What should he do ? Or is there anything he can do ? Answer next issue.

MULTI-LOADERS

The latest MULTI to reach these parts is DALEY's OLYMPIC CHALLENGE. As the wounded chap was unlucky to miss out on a medal I expect that it'll be cheap, cheap 'fore long. The main file is BLITZ5 - but the rest is NO - NO ! So, if you want to ruin your keyboard, get hold of the disc version - but DON'T pay full price for it !

There's not many that can be transferred completely from tape, there are some that are available as "SPECIALS". Even your ubiquitous MULTIFACE II falls flat on these, for much the same reason - files are loaded sequentially on completion of each section. In some cases you'll make it with BSM & BLITZ [WCLB, ROADRUNNER.] where MFTII will fail.

COMPILATION PERSPIRATION

POWER PLAYS - from Power House [now extinct !].

CORRIDOR CONFLICT goes via HACKPACK, the remainder are OPTION 1 - WRATH OF OLYMPUS, FREEDOM FIGHTER, NAKAMOTO, NOCTURNE, TIME LORD, AMSTRAD SHUFFLE and BARRIER REEF.

From Frank Ryan a whole daffy of compilations explained :

10 COMPUTER HITS 2 ALL OPTION ONE, but remember to remove the load address in MUTANT MONTY to avoid "BAD COMMAND". The rest are, 3D STARSTRIKE, SUPER PIPELINE II, TECHNICIAN TED, ANDROID 2, CODENAME MAT, MOON BUGGY, WORLD CUP, GAUNTLET, FANTASIA DIAMOND.

10 COMPUTER HITS 3 OPTION ONE gets: HIRISK, DEVILS CROWN [just use the main file], WRIGGLER, ELIDON, GEOFF CAPES [needs loader from newsletter]. CAULDRON is OPTION2X, ON THE RUN is OPTION4, DYNAMITE DAN use HACKPACK2, and for JUGGERNAUT Frank used the "bust" from the news, I think it'll HACKPACK or something as well.

10 COMPUTER HITS 4 HACKPACK accounted for DEACTIVATORS, TRIAXOS and SPINDIZZY. OPTION2X - sorted out PULSATOR, STARQUAKE, and SACRED ARMOUR of ANTIRIAD. OPTION ONE for REVOLUTION, BRIDES OF FRANKENSTEIN and UCHI-MATA, with CITY SLICKER and DANDY both "NO-GO" and available as "SPECIALS".

FIVE STAR HITS 3 TRAPDOOR - OPTION 1 + LOADER. EXPLODING FIST - HIBONKEY. TAU-CETI - OPTION 1. TEMPEST - OPTION 3. STRIKE FORCE HARRIER - HACKPACK [Skip the first two files to transfer]. FIRELORD & ALIENS are both specials.

COMPUTER CLASSICS Not so useful this one. ZYNAPS needs the recent mini-bust. DYNAMITE DAN is HACKPACK2 again. CAULDRON2 is OPTION2X, with ALIENS and EAGLES NEST as "SPECIALS".

CODENAME MAT II This appears on one compilation in a form totally different to the original. You can tell which one it is by transferring the basic loader and noting the MASTER HACKER reference if you list it. It's too idiotic to be THE MASTER HACKER of OPTION 5 infamy - and why anyone would want to be connected with such an arrogant code-waster I don't know. Anyway, suffice to say that a few alterations to the said basic file will actually dump the confounded game to disc for you ! Here it is - self explanatory.

BUNLOCK Later Speedlocks

One of the files that resides on the BLITZ disc [by the name of BLITZ !], this is also on BSM1988 and takes care of at least -

ARMY MOVES - both, COBRA STALLONE, DONKEY KONG, GOONIES, GREAT ESCAPE, ARKANOID, BMX SIMULATOR, EXPRESS RAIDER, LEADERBOARD, TOURN. LEADERBOARD, MIKIE, SARACEN, TOPGUN, MINDSHADOW, LEGEND OF KAGE, VAMPIRE. HIGHLANDER[See 19], SHAO-LIN, TENTH FRAME, XEVIOUS.

BONZO BLITZ - THE SPEEDLOCK CRACKER ; New reports:

COSMIC SHOCK ABSORBERS, ATV SIMULATOR and main file of DALEYS OLYMPIC CHALLENGE are most recent notifications. The last two use the BLITZ5 file. Some of you may recall that I predicted a "new" SPEEDLOCK some months ago. BLITZ5 has been on the BLITZ disc ever since, just starting to earn it's keep ! Another "first" for BONZO ! Duncan Whyte says there's no guessing about the compilation version of WAY OF FIST - it is a BOLDXL type.

HACK PACK

Note that LR = LAST RESORT. EX = EXPANDED MACHINES ONLY. TA = Press TAB AFTER tape stops.

A small mistake in the listing for HP2 meant that it only dealt with binary files, I think that nearly all of you spotted the missing line, 120 RUN". Sorry about that - I deleted the line in the wordprocessor intending to add the command to the end of line 110, but forgot ! It has been well tested with good results reported from many of you. A little twist - remove the CALL &B000 in line 80, and add POKE &BD16,&E9. You'll then find it will cope with TIRANOG. Worth keeping in mind !

An assorted mixture of reports,

SOULS OF DARKON, SAMURAI WARRIOR [EX], BEERHUNTER, IBALL2, DRAGONS LAIR[Main file], POGO OLYMPICS[EX], WALLY WINO[LR-MOFF], CONTAMINATION[LR-ALLOW RES.], THINGY & DOODAH[EX HP2] TOBRUK [LR-ALLOW RESET].

If you have the VIRGIN tape of STRANGELOOP - then use side B and it should be no problem as a normal HACKPACK transfer. WALLY WINO will need TAB hitting as soon as "81" appears.

Note that "*" in the 700+ list invariably means ALLOW RESET as well as LAST RESORT.

SPECIALS

These programs, that cannot be done via BSM, or any utility [some can be done via BANKRAID on a 6128] short of a magic box , represent the hard work of a number of gifted "meddlers", plus the ones that I do myself. * = Do it yourself with BANKRAID !

NEWS FROM THE GRASS BOOTS

John Brown experiencing the painful "bug" on BUBBLE BOBBLE, whereby instead of loading the final screen it crashes, wrote to FIREBIRD returning the tape to them. After 3 months and several more letters he finally received another tape. Just a compliments slip, and no letter of explanation ! The tape ? You guessed it - just the same ! If you are having difficulty contacting FIREBIRD [and would like to indulge in some time-wasting fruitless correspondence] then the address appears to be not the obvious one, but:

FIREBIRD SOFTWARE, B.T. MAIL ORDER
P.O. BOX 394, LONDON, N8 0QR

Paul Greenbaum found that his KDS 8-BIT printer port wouldn't work on his 6128 ! Hours on the 'phone eventually confirmed that it doesn't work on SOME 6128's - so Paul got a MARK X version that does work. In other words, it ain't bound to be your 6128 / printer at fault!

Much more encouraging was a letter I received from one of our meddlers, Mr. F. DONEGAN, the important part of which reads;

"I can help with **HARDWARE** problems, willing to give advice, I repair and can supply spares for ALL AMSTRAD computers. I can be reached on 01 - 856 - 3551 between 7pm and 10pm weekdays, or THURS/FRI/SAT between 9am and 6pm on 01 - 303 - 4750."

That is certainly one of the most useful offers of help we have had.

Flob-adob-dob! Hello. Brain in gear, ready to go. No medals (topical, topical !) this month, but then I've never given any away, sounds like a good idea to me. For those of you who don't know what I'm on about, don't worry - nor do I ! Actually, what your witnessing is a Split Personality! (Yes, I know it was released many years ago, before the dawn of time) I've finally dug out the transfer. The reason for it is simple - I'm tackling the Specials list. Call me a Masochist - and a Sadist for making you read it !

Chom-ching-chang. Type in this listing - and slide the Bankraid III disc into drive A. Run the program with the tape in the player. Its fully automatic (uses a little trick a man standing on his head showed me (all done with mirrors)). When the Bankraid menu appears, use option 'P' to save it to a disc of your choice.

This next paragraph is where I get to sign off. My predictions for the Christmas? Ok. I submit. Firstly, a (no names) Amstrad mag will close down. Secondly, the CPC's will start to slip away from the major formats. (less software, John) Last of all, Bonzo News will still be here (what else did you expect?), will I though ? Anyway, I'm not studying Philosophy, bet your'e relieved. Think I'll go Alternative next week. Yes indeed, that's right loyal reader. He who laughs last laughs longest - and don't you forget it ! Just the job for adventure fiends ! Includes articles by our very own Bob Adams - which proves that some meddlers can write, read AND play adventures ! Now under the control of the delightfully named Mandy Rodrigues [No Simon, Mandy is a Mrs. and the obvious adjective would NOT be suitable ! You can stop that right now, cats do NOT like jelly-babies - not stuffed up their nostrils anyway !].

Mandy will send you a sample copy of ADVENTURE PROBE for £1.25 - try it.

BONZO'S BARGAIN BASEMENT

Not a regular feature, but there's a fair amount of "goodies" available this month, including some from me [Open to offers for Simon - runs on jelly-babies, work-rate zero] I have a DAKTARI 520STFM, as most of you know. It's had about 2 hours of attempted use, but I don't like the damn thing at all ! If you want to know the good things about the ATARI read elsewhere. Anyway, ATARI STFM, 1/2 MEG. built in drive + adaptor to use AMSTRAD CPC COLOUR MONITOR, aprox 70 discs pseudo-blank, 20 real blanks, + original software [ex WH SMITH] valued at £200. I want £300 for the whole lot. I've also got a PCW8512 c/w printer and some software in perfect condition, again - £300. A Radio Amateur friend of mine has a mint, boxed, CPC464, COLOUR, some tape software - around £160 for this hardly used computer. Contact me for any of above.

Robert Shepherd of Sutton Coldfield, TEL 021 - 353 - 5536 has loadsa goodies, CPC6128[COLOUR] + 150 DISCS(games and utilities) + TELETXT ADAPTOR - around £400 the lot. MULTIFACE II [OLD STYLE] £15. DISK WIZARD £10. DISK DEMON £10. DMP2000 £80[offers?] SECOND DRIVE for 664/6128 £45. ROM BOX with MAXAM, ARCS, UTOPIA, RODOS, PROTEXT - £50.

Nick has a few unopened tape games, say £3 each, DEACTIVATORS, DELUXE MARBLE MADNESS, IMPOSSABALL, LIGHT FORCE and DAM BUSTERS.

COMMERCIAL BREAK

Dave Crossman is producing a device to fit between your ROM BOARD and COMPUTER that will enable you to physically turn of those damn ROMS without forever unplugging the board. As you know this causes a lot of wear, is frustrating, and ROMOFF commands do not always work. There will be an indicator as to the ON/OFF condition, and a "soft" reset switch for the computer will be included. The price will be £15, and I'm looking forward to getting my one. I'll reserve judgement, as always, until I've used it - but I really have no doubt that it will do exactly as Dave says. More news next issue.

I also have a second 6128 with a 51/4 drive, and was pleased to get a test version of the BOOTSELECTOR CARD from Dave McKeever of STRATHCLYDE DEVELOPEMENTS [TEL: (0292) 541283]. The main purpose of this bit of kit is to enable you to switch drive status between A & B. This means that CPM can be run from DRIVE B [when it is nominated as DRIVE A], as can any other programs. I was intending to acquire a small quantity for re-sale, but unfortunately it didn't function on my old Cumana 51/4 drive, so I would be unable to offer any support to problems. However, Steve Brokenshire has tested it on several other 51/4's as well as the standard 3" second drive and found it to work perfectly OK. Contact Dave McKeever for price and details of this useful bit of kit - 6128 only at present.

ASTROSUITE - A MEGA ALASTAIR "UBIQUITOUS" SCOTT PRODUCTION.

Many of you will know of the programming exploits of Alastair, mucho PD. from the WACCI "goodies bag". Leaning on the basis of ORRERY [from a couple of ACU's back, and re-named Model Universe - but no connection with Arnor program of same name] and the overpriced STARWATCHER program of eons past, ALASTAIR has completed his offering of a vast set of linked programs. The improved ORRERY [alias M.U.] is linked with 130K of other programs to do with SUN, MOON and PLANETS. There's 100K of instruction files too !

SSAE to Alastair gets further information - if you need it, or send £8.50 direct to Alastair who will supply ASTROSUITE on disc. Send your own disc, and it's £6.00. Cheques, Postal Orders, Cash or Olympic Medals to;

Alastair Scott, 10/3 BLACKET AVENUE, EDINBURGH, EH9 1RS.

POSTAL STRIKE ANGUISH

Our turnover was reduced to next to nothing for about a month, and unlike a "postie" I can't work overtime to recover lost trade ! It's an ill wind that blows nobody any good, so in order to inject some badly needed loot into the BONZO BALANCE I am forced to discard the profit motive in favour of turnover for a short period. Hence, until the end of October ANY "SPECIAL" disc or assortment will be £6 only. Also, provided you can show proof that you already own two or more BONZO DISC UTILITIES, you can have any other one for just £6. Now's the time to get the "extra" disc that you've only pondered before !

NOVEMBER 1988. No. 23. WHICH A.A. ?

GREETINGS ! [JACK's supposed to be in the USA - Lies !]

There he was, our Simon, with an even more glazed expression, attempting to emulate the Leaning Tower of Pisa whilst eating a mangled assortment of fish and chips from a copy of CPC COMPUTING. [It used to be called C.W.T.A., soon to become anonymous we fancy]. Anyway, tilted like that on the doormat, with more beer on his tie than you drink in a lifetime, we began to get suspicious. Very quick witted at Bonzo Towers ! A visit to A.A. was ordered, else no Jelly Babies or clean cardboard underwear for a month.

At the moment he's curled up in the fireplace studying flight information for North America. Seems he was advised to drink Canada Dry, so he wants to emigrate ! We think he went to the other A.A., NOT the motoring mob either. There's no knowing what capers they get up to in Bath ; I've had lots of fun with rubber ducks and things, haven't we all ? That's nowt to do with computers, or is it ? More news suggests that the new AMSTRAD will be pretty anonymous, HE surely doesn't mean THAT is it - does he ? The latest SHOW was something of a disaster for Traders, no less for the other Simon [the breeder] who bought THE EMPIRE STRIKES back and immediately wants to sell it ! I've done a BIG BUST for it, which will give it something useful to do - but someone out there likes it, don't they ? I'm listening.....

Hello, he's just got out of the fireplace and looking for a large airmail envelope. No Simon, You know what happened when we posted you to Yarmouth ! No, we didn't post you twice - Ah, I see the gesture has another meaning. Before the final brain damage we extracted the answer to last month's Simons Spot, and got a new problem.

SIMON'S SPOT Translated from Simonese by Ivor Grotjob.

The pickle Simon was in last month was caused by the workspace filling up with arrays and data, to such an extent that the machine couldn't organise a buffer. The best solution is to type CLEAR as a direct command - look in your handbook to see what it does. Typing NEW just won't do !

This month he has a problem with a binary file that when loaded and called still won't load in the files it's meant to. He knows that the loading routine correctly names the files it wants, everything about that is OK. He suspects that there's a CALL or JUMP to &ED16 which reverts everything to tape-loading effectively, he doesn't know the address it's at - and poking &ED16 with &c9 just crashes the program. What CAN he poke to it ? Incidentally, he knows that &ED16 is the problem because if he loads the program and pokes &ED16 with &f3, AND &ED17 with &76 the computer "hangs" when he calls the start of the file. Another question, why is that ?

MULTI-LOADERS

Latest seen is VINDICATOR, so buy the disc 'cos these make my brain hurt, and similar to Simon's rear end. If you've got the disc DON'T expect anything to "clone" it - the nearest you'll get to it is with version 5 of the French Discology, and it'll run sometimes ! On the subject of Vindicator I am assured by Jamie that OPPENHEIMER and ENOLA GAY have some special significance. Simon says "So do JB's and Carlsberg Special Brew !". I have hacked out DALEY'S OLYMPIC CHALLENGE tape, this appears on the "specials" list.

COMPILATION PERSPIRATION

To save myself some headaches I repeat the information on WE ARE THE CHAMPIONS, a perfect example of how loaders can change on compilations ! The original transfer method in brackets;

SUPERSPRINT [5], INTERNATIONAL KARATE+ [5], RAMPAGE [5X], are all now BLITZ4. RENEGADE being a multi-loader is a BLITZ main file only. BARBARIAN is as before, OPTION2X. The lesson is that if it's a compilation - anything could happen, same applies to re-issues ! Last I heard was that one version of TOMAHAWK is OPTION 1, funny ole world!

OPTION 1 * = see notes following. Latest reports:

FOOTBALL FRENZY, HOUSE OF USHER, SUNSTAR, BLUE RIBBON POOL, MURDER OFF MIAMI*, TT RACING SIMULATOR [re-hashed ENDURANCE says Alan Maybury], FA CUP FOOTBALL*, UCHIMATA*, PHM PEGASUS*

Murder off Miami needs some thought, all filenames are the same, so you'll have to do it file by file, renaming as you go. Some concern about SCOOPY DOO, which MAY now be differently constructed. Just in case it's the same as before I list the old loader for OPTION 1 transfer. The FA CUP & UCHIMATA [was a BLITZ!] files by Ian are self-explanatory.

OPTION 2 but use 2X

Comes back to life with some interesting stuff,

CYBERNOID II, PASSENGERS ON THE WIND [PART 0], and some "monkeying" to get MOTORBIKE MADNESS !

Motor Bike Madness is listed here because you can do it without OPTION 2, but you must use the MASTERX system ! Do the first 14K with OPTION 1, reset CPC, and leave tape in player. Now rename the disc file to B1.BIN, load GETMAST from BSM disc, put the B1 disc back in and type RUN. GETMAST will load the B1 file from disc, and then pick up the rest of the tape files, dumping them to your disc. It then only needs RUNMAST to be added, and away it'll go. A hybrid hybrid, no less !

OPTION 3 - Everyone uses BLITZ - don't they ?

No, not everybody. ADVANCED PINBALL SIMULATOR with OPTION 3 or PICBONK RALLY DRIVER by ALTERNATIVE with BONKEY. The latter game is NAFF says a sad purchaser.

OPTION 4 Not to be confused with the MENU OPTION !

Full known list is :

BATTLE OF THE PLANETS, COFOOT, FROSTBYTE, JACK THE NIPPER, EVERY WALLY, SAS STRIKEFORCE, AVENGER[not the S'lock early vsn.], FUTURE KNIGHT, EQUINOX, FOOTBALLER O'YEAR, LIVING DAYLIGHTS, HERBERTS DUMMY, 3 WEEKS IN WATFORD, 2112AD, NEXOR, ARKHAM MANOR PT2., FRANK BRUNO[main file], DARKSTAR[FIREBIRD], ANGLEBALL, TANKBUSTERS[early vsn. 464 only], ON THE RUN[early versions], ASTERIX

Note that I've deleted STORMERINGER, as apparently it becomes unplayable. Previous mini-bust should be used instead.

OPTION 5 Not to be confused with the MENU OPTION ! * = reported terminally ill ! Keeps on going does this one. Latest news gives us *RUN FOR GOLD*, *HOTSHOT*, and *JOE BLADEII* to add to the list below. *RUN FOR GOLD* wasn't originally an OPTION5 - so careful with this one. I'm still waiting to see a "no-go" *HIJACK* as reported last month. *BACK TO THE FUTURE*, *SPACE ACE*, *JOE BLADE*, *HIGH FRONTIER*, *STAR RAIDERS II*, *ENDURO RACER*, *HOWARD THE DOCK*, *CHMP BASEBALL*, *TERROR OF THE DEEP*, *WONDERBOY*, *QUARTET*, *KNIGHTMARE*, *XOR*, *SUPERSPRINT*, *HIJACK*, *DRILLER*, *INTERNAT.KARATE+*, *TETRIS*, *REFLEX*, *FIRETRAP*, *CHAMP'SHIP BASKETBALL*, *DIZZY DICE*, *TANIUM*, *RADIUS**, *SHANGHAI KARATE[pt.1]*, *CHAMP. OPTION 6 * = refer to NEWS 20.

BARBARIAN II by *PSYGNOSIS*, not to be confused with the *PALACE* game can be added to; *ANARCHY*, *SWAT*, *GRAND PRIX TENNIS*, *ENERGY WARRIOR*, *KILLER COBRA** & re-issued *ALIEN 8*, *GHOSTBUSTERS*, *MOL'C MAN & SABRE WOLF*, *KUNG FU MASTER [AMERICANA]*, *KIKSTARTII*, *GOLDEN EGGCUP*, *POOL & SNOOKER [mastertronic]*, *SPEED KING [re-release]*.

OPTION 7 The *LORICIELS BIG BUST* of issue 21 !

Still nothing to report here. The small list is;

PRO TENNIS, *SOCCER 86*, *3DFIGHT*, *BILLY*, *20X2009*, and *FIFTH AXIS*. There's a few more ?

BUNLOCK Later Speedlocks

One of the files that resides on the *BLITZ* disc [by the name of *BLITZ !*], this is also on *BSM1988* and takes care of at least -

ARMY MOVES - both, *COBRA STALLONE*, *DONKEY KONG*, *GOONIES*, *GREAT ESCAPE*, *ARKANOID*, *BMX SIMULATOR*, *EXPRESS RAIDER*, *LEADERBOARD*, *TOURN. LEADERBOARD*, *MIKIE*, *SARACEN*, *TOPGUN*, *MINDSHADOW*, *LEGEND OF KAGE*, *VAMPIRE. HIGHLANDER[See 19]*, *SHAO-LIN*, *TENTH FRAME*, *XEVIOUS*.

BONZO BLITZ - THE SPEEDLOCK CRACKER ; New reports:

SLAINE [BLITZ4], and naturally *ADVANCED PINBALL SIMULATOR* are the latest.

HACK PACK

Note that LR = LAST RESORT. EX = EXPANDED MACHINES ONLY. TA = Press TAB AFTER tape stops.

Acouple of reports only. REMEMBER that HP2 makes light work of nearly all OPTION 1 types.

PEGASUS BRIDGE, and *MR FREEZE [FIREBIRD ISSUE]* are both HP2, so I am assured.

Note that "%" in the 700+ list invariably means ALLOW RESET as well as LAST RESORT.

SPECIALS

These programs, that cannot be done via BSM, or any utility [some can be done via *BANKRAID* on a 6128] short of a magic box , represent the hard work of a number of gifted "meddlers", plus the ones that I do myself. * = Do it yourself with *BANKRAID* !

*NB. Some of these in compilations DO transfer, usually OPTION 1.

BONZO BLITZ, *OPTION4* TO *OPTION7* transfers are removed, but they are still available if needed. Charges: £12.50 per disc (we supply the disc and return postage) regardless of number of games on disc. An inlay as proof of ownership of the tape version is required - allow for a maximum of 6 games per disc, although often more will fit on. Also let me know which machine you have, I have different versions for each machine in a few cases. PLEASE NOTE, LOADING SCREENS ARE NOT ALWAYS INCLUDED - if you definitely want them say so. Will do if we have them ! NOTE: NEWSLETTER SUBSCRIBERS PAY only £10 per SPECIALS DISC.

SPECIAL SPECIALS

This is the way to get your "specials" at just \$6 per disc. We supply the disc and postage. A "standard" set of discs enable me to quickly copy the masters, saving copying and searching time. *We must have the inlay cards as proof of ownership*, of course. Each month the list is extended. Any two sides make one \$6 special. Choose from;

DOO DAH

Just to remind that it exists, and despite the fact that it is NOT a "cloner" it does make good back ups of all know GREMLIN discs, including *MICKY MOUSE*.

WHAT'S NEW PUSSYCAT ?

Not a lot, but thought you'd like to know that the current BSM incorporates a chiselled-out database from BIG BATCH carrying the useful info on 790+ transfers. It's usable and amendable - what finer reason for a £3.00 update ? OK, a live BIG BUST may be better - but who's knocking what ? Don't do that Simon - it'll break off.

ABPATCH = BBPATCH

This is your Xmas "goody", published now in case we are not able to squeeze another issue in before then. I think we will- but MORE reports will be needed to make it up to scratch! With the plethora [look it up, Simon] of non-standard DRIVE B drives about I am getting more and more requests for information on how to RUN games from DRIVE B. As all of you should know, DRIVE B is essentially a DATA storage medium for the likes of word thingies. By tradition CPM boots only from A, so why should AMSDOS be an exception ? Now, games that have a basic loader will invariably run direct from drive B without any hassle, whereas those with a binary first file will not. This is because a call to &BOCE must be made - thus resetting the default drive and standard formats [sounds familiar ?]. A single [stand-alone] binary file will run OK. You will know that we manage to retain BIGBONZO format for games by using the file BBPATCH, which simply intercepts the &BOCE call and re-instates the BIGBONZO format. It occurs to me then that a suitable change to BBPATCH could enable it to,

- [1] AUTOMATICALLY DETECT THE DRIVE IT IS RUNNING FROM.
- [2] LIKEWISE DETECT THE FORMAT IT IS RUNNING UNDER.
- [3] PRESERVE THESE FOR THE LOADING OF SUBSEQUENT FILES.

It would also be nice if the "PATCH" could somehow relocate itself as needed to avoid being overwritten by the incoming file, which would send everything haywire - and to work regardless of the type of format from which BBPATCH, suitably renamed to match the game, was run under. A tall order - or an 80' scaffold pole ? Yes, even one of those Simon !

There it is then ! About the only thing that'll beat it is a file that relocates itself straight over the patch [unlikely, but fixable] - or a file that resets the operating system before the &BCC call. The latter could be solved with suitable pokes to &BCC8, &BD37, &BD16 in the BEPATCH file before A\$ is actually run. Perhaps a VERY small percentage will refuse to behave. So to recap, any drive, any format that is current, and away it will go. You already know how to use BEPATCH, so this revised one will represent no problem to you. What about a BASIC loader that includes a line RUN"FILENAME", FILENAME being a binary file ? Simple ! Delete the RUN command, replace with GOTO XXXX, with BEPATCH being appended to the loader starting at line number XXXX.

REMEMBER that the whole point of this is that provided BEPATCH is the first file of your game it will not matter what drive or format you run it from [The old BEPATCH was BIGBONZO, drive A specific.]

If you "CRUNCH" files via Harry's super crunchy job, then DON'T specify BIGBONZO if you want to take advantage of the DRIVE B aspect. Crunch for normal format, THEN incorporate the new BEPATCH. At this point new readers are removing their brains for adjustment.

Some of you format to 80 tracks on those "funny" drives, and may be stuck for something to set up the drive if you are using the BOOTSELECTOR card to nominate your second drive as DRIVE A. I should add at this point that the BOOTSELECTOR card is an excellent and convenient way of utilising your DRIVE B funny to the full. For example you will be able to run CPM under it, whereas BEPATCH is only applicable to AMSDOS applications. If you're keen on CPM then you know all about the GRADUATE CPM ROM - if you don't - find out because it's quite brilliant if a little costly for blue meanies.

Anyway, I digress. The BIGBONZO set-up file can be modified to account for 80 track formatted discs, to enable drive A, B, or both to recognise the enlarged format, and thus enabling the use of the revised BEPATCH. Here begins the listing for GIANT FORMAT initialisation [is that spelt rite ?]

```

```

The DATA in line 100 MAY be different according to your format data. Modify if needed. For that matter DOO DAH can be modified to format 80 tracks, but that's another story ! WHATEVER you do, DO NOT try to format to 80 tracks on a regular 3" drive, DD1, FD1 or otherwise !

RENAME OPTION 5 FILES

John, now resident in Peterboro' after a short tail (!) of woe in I.O.M., returns with a nifty way of re-naming those awkward OPTION5 files that always seem to begin with a "C". Well, the piccy is better than the loading screen. Tough bit first - transfer the first file from the tape with OPTION 1. Load it from your disc, and then alter line 80 to read;

Now type RUN [ENTER]. The file EMP will be written to disc. Erase EMPIRE.BAS. OK so far ? The tape should be in the right place, so leave it there, and type in this transfer file. Now run it [did you save it just in case ?] and the rest of the game will be collected from tape and dumped to the disc. Just RUN"EMPIRE", and THE UMPIRE BIKES HACK !

Send £6 and Disc.

Wow, pretty funky hey? Here we are, RAIDERS INC. Straight into the stuff we shall go!. The transfers this month are all courtesy of Brenton Nicholson (applause please)(thank you). They are all for Raid 2, although if you own Raid 3 (what taste you have!) then you can still use them.

For each listing, Raid 2 users should run Install from their discs and then use Dummy* to create a fake Info file when the transfer has taken place. Then use Grabsrag as normal. You will need to alter the execution bytes (using Alter) to what each program says. Raid 3 users can Run "INSTALL" from the Raid 3 disc. This installs Raid 3 as if it were Raid 2. You too need to alter the exec bytes, but use the Alter option, then save it all to disc with option 'P' ! [* I use Simon, naturally. Col.]

My word processor tells me I'm on line 33, so I shall wrap up quickly! If anyone has any ideas as to what they would like to see (software wise!) for the Amstrad, I'd be glad to hear (so long as it has NOTHING to do with tape to disc!). If more than 2 people reply, then I might not be able to reply to you all (I suspect this is wishful thinking!), you could also send your ideas to Colin (Oh dear, has that put me in his bad books?) or even Simon (I believe he's writing a Jellybaby simulator (I reckon he likes all the research involved!)). A fresh injection of NEEDED software is required, so screw your head back on and get to it! [Exit Simon trying to screw his head off. ~~~~~ ?]

That's me for another month, and remember : if you could fit all the stuff on all of your discs onto one disc, what would you do with the disc box?

BONZO'S BARGAIN BASEMENT

First note that I have heard nothing that would enable me to advise the use of a firm called MICROCHIPS [also known as PROMPT DATA] of somewhere south. I also have good evidence of an intolerant policy by MARTECH, "CASH IT and FORGET IT" style.

Better stuff may interest the users of the good old DMP1 printer. Jim Morton has a number of goodies he has written to change the output of this printer into something special. There's a Font Designer, Logo Designer AND a Screen Dump too. I couldn't test this - ain't got a DMP1 - but I reckon a disc plus £6 and a bit for postage sent to Jim would delight !

COMMERCIAL BREAK**ASTROSUITE - A MEGA ALASTAIR "UBIQUITOUS" SCOTT PRODUCTION.**

Many of you will know of the programming exploits of Alastair, mucho PD. from the WACCI "goodies bag". Leaning on the basis of ORRERY [from a couple of ACU's back, and re-named Model Universe - but no connection with Armor program of same name] and the overpriced STARWATCHER program of eons past, ALASTAIR has completed his offering of a vast set of linked programs. The improved ORRERY [alias M.U.] is linked with 130K of other programs to do with SUN, MOON and PLANETS. There's 100K of instruction files too !

SSAE to Alastair gets further information - if you need it, or send £8.50 direct to Alastair who will supply ASTROSUITE on disc. Send your own disc, and it's £6.00. Cheques, Postal Orders, Cash or Olympic Medals to;

Alastair Scott, 10/3 BLACKET AVENUE, EDINBURGH, EH9 1RS.

SCREAM !

As you will all know, telephoned help etc., from BONZO TOWERS during normal working hours. Monday evening is reserved for calls that cannot be made during the day.

COLCHESTER ?

A very active group of meddlers meet regularly to sort out all manner of CPC problems. Drop a line to Trevor to get the details;

TREVOR CATTERMOLLE, 24 CROMWELL ROAD, COLCHESTER, ESSEX

Trevor himself is very keen on hardware, roms et al, as indicated by an interesting letter just received from him. Keep on meddling, Trev !

Luke Ireland Offers help on all aspects of "meddling". Fridays after 6pm and Saturday after lunch 'til lat'ish. Luke's phone number - **021 - 458 - 4804**

STEWART C. RUSSELL, he who sorts out all the problems in MY programs [it's the University environment that does it !] will be happy to help where he can - by LETTER ! Just as well considering the cost of phone calls to SCOTLAND ! Write to Stewart at,

140 CAPELRIG ROAD, NEWTON MEARNS, GLASGOW, G77 6LA

KAY & GRAHAM WHEELER - famous names in the adventure world are able to help with a great number of adventures. All of mine, a number of INFOCOM and about 60 others. Between 10a.m and Midnight is OK ! **PHONE is [0225] 26919 - that's BATH.**

BONZO ON ROM ?

Rodney is your man to organise these black beetle affairs - he has the equipment and other gubbins to do the job for you. In the first instance drop him a line and a SAE telling him your needs, all will be revealed. Rodney is an Aussie, the NO POM ROM man !

RODNEY TIPPING 21 Marlborough Avenue, HORNSEA, NORTH HUMBERSIDE, HU18 1UA.

WADAMIGONNAREADNOW?

WACCI from WACCI 59 The Green, TWICKENHAM, TW2 5TU. £1.00 plus a GIANT SAE gets the works. ! Much better value than you get from The BULLETIN !

ADVENTURE PROBE

C/o Mrs. M. Rodrigues, 24 MAES Y CYM, LLANDUDNO, GWYNEDD, LL30 1JE.

It's real Dandy, Mandy ! Pleased to report that Sandra is now out of hospital and doing well. ADVENTURE PROBE includes articles by our very own Bob Adams. I've just read the last one, makes me wish I could find time to play some adventures - or even write one.

Mandy will send you a sample copy of ADVENTURE PROBE for £1.25 - try it.

UNITED AMSTRAD USER GROUP MAGAZINE

1 MAGNOLIA CLOSE, FAREHAM, HANTS., PO14 1PX

Stirred in with SUGAR CUBE recently, this is a very worthwhile read. Rates are VERY low, but can I suggest you tempt them with a mere £1 for a sample issue ?

FINALLY

Get out, Simon - we got nothing from your last effort except bags of Jelly Babies. Simon retreats, sulking, back into the fireplace. Grate, innit ! Next news SHOULD be out just before the entire staff really go to Canada. Depart 14th. December, return 5th. January. So, no Monday clinic, specials or other stuff during that time ! To get the December issue really bang-on I need YOUR news, PLEASE ! Stuff it on a postcard, the back of a fiver, or anything ! I've got stacks of stuff from you all for infinite lives, meddles and so on, it's transfer news that is badly needed. Compilations, or anything will help. Meddlers ! you, do not collect 5000, do not pass go, but do send a scribble.

shall we do for a new proggie ? Any ideas anyone ? Regards....

Colin
